HATCHET

Simon and Schuster Celebrate the thirtieth anniversary of the Newbery Honor-winning survival novel *Hatchet* with a pocket-sized edition perfect for travelers to take along on their own adventures. This special anniversary edition includes a new introduction and commentary by author Gary Paulsen, pen-and-ink illustrations by Drew Willis, and a water resistant cover. *Hatchet* has also been nominated as one of America's best-loved novels by PBS's *The Great American Read*. Thirteen-year-old Brian Robeson, haunted by his secret knowledge of his mother's infidelity, is traveling by single-engine plane to visit his father for the first time since the divorce. When the plane crashes, killing the pilot, the sole survivor is Brian. He is alone in the Canadian wilderness with nothing but his clothing, a tattered windbreaker, and the hatchet his mother had given him as a present. At first consumed by despair and self-pity, Brian slowly learns survival skills—how to make a shelter for himself, how to hunt and fish and forage for food, how to make a fire—and even finds the courage to start over from scratch when a tornado ravages his campsite. When Brian is finally rescued after fifty-four days in the wild, he emerges from his ordeal with new patience and maturity, and a greater understanding of himself and his parents.

ATLAS OF THE INDIAN TRIBES OF NORTH AMERICA AND THE CLASH OF CULTURES

iUniverse Atlas of the Indian Tribes of the Continental United States and the Clash of Cultures The Atlas identifies of the Native American tribes of the United States and chronicles the conflict of cultures and Indians' fight for self-preservation in a changing and demanding new world. The Atlas is a compact resource on the identity, location, and history of each of the Native American tribes that have inhabited the land that we now call the continental United States and answers the three basic questions of who, where, and when. Regretfully, the information on too many tribes is extremely limited. For some, there is little more than a name. The history of the American Indian is presented in the context of America's history its westward expansion, official government policy and public attitudes. By seeing something of who we were, we are better prepared to define who we need to be. The Atlas will be a convenient resource for the casual reader, the researcher, and the teacher and the student alike. A unique feature of this book is a master list of the varied names by which the tribes have been known throughout history.

SENSITIVE TO LISTEN AND WILLING TO OBEY

WestBow Press God uses people daily to communicate His fragrance and message to us. Too often we don't check to see what aroma or impression we are leaving for others to see, hear, or smell. After visiting someone's home or before checking out of a motel, or when moving, we double check to make sure we haven't left anything behind. Even criminals check to make sure they haven't left any clues at the crime scene to identify them. A story reminded me of this. A robber thought he had committed the perfect crime. He assumed he left no clues behind. But he didn't count on someone remembering how he smelled. The smell he left behind was what helped convict him. Yes, we leave something everywhere we go. Stuart Holden reminded a young man moving from a boarding house of this fact when the young man said, he was just double checking to make sure he wasn't leaving anything behind. "There's one thing you will leave behind, young man, your influence."

SWALLOWED BY THE SEA

THE STORY OF AUSTRALIA'S SHIPWRECKS

National Library of Australia Published in Association with the Western Australian Museum 'Swallowed by the Sea' tells the stories of Australia's greatest and most tragic shipwrecks, lost in raging storms, on jagged reefs, under enemy fire, or through human error, treachery or incompetence. It includes wrecks from all corners of Australia, from 1622 to as recently as 2010, from clipper ships to colonial schooners to East Indiamen. Read about the oldest known wreck in Australian waters, the Tryal, driven into a maze of sunken rocks by the inept Captain Brookes, and about the loss of emigrant barque Cataraqui, which struck a reef off King Island in the middle of a stormy night, drowning more than 400 people. The violent wrecking of ships is only part of the story. Maritime archaeologist Graeme Henderson has personally located and dived many of the shipwrecks in this book. Alongside his accounts are colour underwater photographs of the dive sites with specially written recollections by members of the diving crew.

eBookIt.com Annotation On 4 August 1892, an elderly couple living in Fall River, Massachusetts were slaughtered with a hatchet. Their daughter, Lizzie was accused of the crime, tried and acquitted. Yet 'conventional wisdom' and Fall River society have always considered her guilty, asking the question, "If Lizzie didn't swing the hatchet, who did?" Now, after more than a century. Professor Masterton uses modern forensics and extensive research to answer that question convincingly.
