Mark Twain's Letters

Volume 3 (1853-1866)

**There was never a man in the world so grateful to another as I was to you day before yesterday, when I sat down (in still rather wretched health) to set myself to the dreary and hateful task of making final revision of Tom Sawyer, and discovered, upon opening the package of MS that your pencil marks were scattered all along. This was splendid, and swept away all labor. Instead of reading the MS, I simply hunted out the pencil marks and made the emendations which they suggested. I reduced the boy battle to a curt paragraph; I finally concluded to cut the Sunday school speech down to the first two sentences, leaving no suggestion of satire, since the book is to be for boys and girls; I tamed the various obscenities until I judged that they no longer carried offense. So, at a single sitting I began and finished a revision which I had supposed would occupy 3 or 4. days and leave me mentally and physically fagged out at the end. I was careful not to inflict the MS upon you until I had thoroughly and painstakingly revised it. Therefore, the only faults left were those that would discover themselves to others, not me-and these you had pointed out.**

The Letters of Mark Twain

Volume 1 (1853-1866)

**About Mark Twain's Letters - Volume 1 by Mark Twain** Mark Twain's Letters - Volume 1 give us the background to his works and show Twain to us as a complex personality with very pronounced weaknesses and strengths: his deep and constant love for his wife Livy, his great capacity for true and loyal friendship, his impetuosity, his restlessness, his extravagance, his occasional childishness, his impatience, moodiness, vanity, generosity, tolerance, honesty, enthusiasm. Nowhere is the human being more truly revealed than in his letters. Not in literary letters-prepared with care, and the thought of possible publication-but in those letters wrought out of the press of circumstances, and with no idea of print in mind. A collection of such documents, written by one whose life has become of interest to mankind at large, has a value quite aside from literature, in that it reflects in some degree at least the soul of the writer. The letters of Mark Twain are peculiarly of the revealing sort. He was a man of few restraints and of no affectations. In his correspondence, as in his talk, he spoke what was in his mind, untrammelled by literary conventions. On his first trip to England to gather material for a book and cement relations with his newly authorized English publishers, Samuel Clemens was astounded to find himself hailed everywhere as a literary lion. America's premier humorist had begun his long tenure as an international celebrity. Meanwhile, he was coming into his full power at home. The Innocents Abroad continued to produce impressive royalties and his new book, *Roughing It*, was enjoying great popularity. In newspaper columns he appeared regularly as public advocate and conscience, speaking on issues as disparate as safety at sea and political corruption. Clemens's personal life at this time was for the most part fulfilling, although saddened by the loss of his nineteen-month-old son, Langdon, who died of diphtheria. Life in the Nook Farm community of writers and progressive thinkers and activists was proving to be all the Clemenses had hoped for. The letters in this volume, more than half of them never before published, capture the events of these years with detailed intimacy.

Diary of Almadus W. Tripp, 1853-1866

Minister in the Christian Church

## A List of Lord Middleton's Foxhounds, from 1853 to 1866

### American Indians and the U.S. Army

### Department of New Mexico, 1853-1866

The majority of these documents are from 1862 to 1866, although a few documents are from the 1850s. The Department of New Mexico dealt with the area in modern-day Arizona, as well as New Mexico. Several of the letters in this collection relate to the threat of a Confederate invasion during the years of the Civil War, while others relate to the U.S. Army campaign against the Apaches and Navajos. Other documents throughout the collection consist of correspondence between military commanders requesting supplies and rations, reports on interactions with groups of Navajo and Apache Indians, and military facility inspection reports.
