KEY=1 - LI CALLAHAN

The Federalist Papers

Read Books Ltd Classic Books Library presents this brand new edition of “The Federalist Papers”, a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. “The Federalist”, as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation’s finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States. **Arihant Publications India limited**

14000 + Objective Questions - General Studies

Arihant Publications India limited Arihant has come up with a revised edition of a compendium of over 14000 questions which will significantly improve the knowledge of aspiring students by providing them with ready and reliable practice material for General Studies. The book has been designed for the aspirants preparing for IAS (CSAT), State PCS, CDS, NDA and other competitive examinations. The revised edition of this question bank focuses on Indian History & Culture, India & World Geography (Env & Eco), Indian Polity, Indian Economy, General Science, Science & Technology, General Knowledge and Current Affairs. The book contains the collection of over 14000 questions covering General Studies. The History section covers ancient, medieval and modern history whereas the Geography section covers world geography, Indian geography and environment & ecology. The General Science section covers Physics, Chemistry, Biology and Science & Technology. The questions covered in the book contain answers side by side to help aspirants evaluate themselves after attempting a certain number of questions. Also the questions asked in recent years’ General Studies examinations have been provided in the book with authentic and detailed solutions to help aspirants get an insight into the recent examination pattern and the types of questions asked therein. Each chapter in the book contains a variety of questions according to the latest pattern Assertion-Reason, Matching, Multi-Statements, Arrangements, Pairing, etc. Also more than 500 questions based on Current Affairs have been provided in the book to give an additional advantage to the aspirants. As the book contains ample number of objective questions which have been designed for students of various competitive examinations, it for sure will act as the best preparation material for general studies for UPSC (CSAT), State PCS, CDS, NDA, etc.

The Price of Federalism

Brookings Institution Press What is the price of federalism? Does it result in governmental interconnections that are too complex? Does it create overlapping responsibilities? Does it perpetuate social inequalities? Does it stifle economic growth? To answer these questions, Paul Peterson sets forth two theories of federalism: functional and legislative. Functional theory is optimistic. It says that each level of the federal system is well designed to carry out the tasks for which it is mainly responsible. State and local governments assume responsibility for their area's physical and social development; the national government cares for the needy and reduces economic inequities. Legislative theory, in contrast, is pessimistic: it says that national political leaders, responding to electoral pressures, misuse their power. They shift unpopular burdens to lower levels of government while spending national dollars on popular government programs for which they can claim credit. Both theories are used to explain different aspects of American federalism. Legislative theory explains why federal grants have never been used to equalize public services. Elected officials cannot easily justify to their constituents a vote to shift funds away from the geographic area they represent. The overall direction that American federalism has taken in recent years is better explained by functional theory. As the costs of transportation and communication have declined, labor and capital have become increasingly mobile, placing states and localities in greater competition with one another. State and local governments are responding to these changes by overlooking the needs of the poor, focusing instead on economic development. As a further consequence, older, big cities of the Rust Belt, inefficient in their operations and burdened by social responsibilities, are losing jobs and population to the suburban communities that surround them. Peterson recommends that the national government adopt policies that take into account the economic realities identified by functional theory. The national government should give states and localities responsibility for most transportation, education, crime control, and other basic governmental programs. Welfare, food stamps, the delivery of medical services, and other social policies should become the primary responsibility of the national government.

The Divided States of America

Why Federalism Doesn't Work

Princeton University Press "As James Madison led America's effort to write its Constitution, he made two great inventions—the separation of powers and federalism. The first is more famous, but the second was most essential because, without federalism, there could have been no United States of America. Federalism has always been about setting the balance of power between the federal government and the states—and that's revolved around deciding just how much inequality the country was prepared to accept in exchange for making peace among often-warring states. Through the course of its history, the country has moved through a series of phases, some of which put more power into the hands of the federal government, and some rested more power in the states. Sometimes this rebalancing led to armed conflict. The Civil War, of course, almost split the nation permanently apart. And sometimes it led to political battles. By the end of the 1960s, however, the country seemed to have settled into a quiet agreement that inequality was a prime national concern, that the federal government had the responsibility for addressing it through its own policies, and that the states would serve as administrative agents of that policy. But as that agreement seemed set, federalism drifted from national debate, just as the states began using their administrative role to push in very different directions. The result has been a rising tide of inequality, with the great invention that helped create the nation increasingly driving it apart"--

The German Länder

An Introduction

Springer Nature The textbook looks at the German federal state from the perspective of the Länder. It provides information on the development of the German Länder, analyzes their significance for democracy, the federal state and the rule of law, and introduces the central principles of politics in the Länder. It offers those interested in politics, teachers and students of political science, social science, law and the humanities a comprehensive as well as condensed overview of the German Länder. This book is a translation of the original German 1st edition, Die deutschen Länder by Werner Reutter, published by Springer Fachmedien Wiesbaden GmbH, part of Springer Nature in 2020. The translation was done with the help of artificial intelligence (machine translation by the service DeepL. com). A subsequent human revision was done primarily in terms of content, so that the book will read stylistically differently from a conventional translation. Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors.

Use it to identify your weaknesses, and then go back to those sections for more study. It's that easy! The only review-as-you-go workbook for the New York State Regents exam.*

Australian Politics in the Twenty-First Century

Old Institutions, New Challenges

Cambridge University Press *The global political environment in the twenty-first century is proving dynamic and challenging for Australian policymakers and political institutions. Australian Politics in the Twenty-first Century contextualises the Australian political landscape through an institutional lens. It examines the legislative and judicial bodies, minor parties, lobby groups, the media and the citizenry, providing historical and contemporary facts, explaining political issues and examining new challenges. The second edition has been updated to reflect the application of political theories in today's civic environment. New spotlight boxes highlight issues including marriage equality, COVID-19 and federalism, the inclusion of First Nations peoples in the political system, and gender equality in public policy. Short-answer, reflection, research and discussion questions encourage students to test and extend their knowledge of each topic and to clearly link theory to practice. Written in an accessible and engaging style, Australian Politics in the Twenty-First Century is an invaluable introduction to the Australian political system.*

Harvard Law Review: Volume 130, Number 1 - November 2016

Quid Pro Books

Holt American Government

Holt Rinehart & Winston

American Federalism: A Concise Introduction

Routledge *Understanding federalism - the form of political organization that unites separate polities within an overarching political system so that all maintain their political integrity - is central to the study of democratic government in the United States. Yet, many political scientists treat federalism as a set of abstract principles or a maze of budgetary transfers with little connection to real political life. This concise and engaging book boils the discussion down to its essence: federalism is about power, specifically the tug for power among and within the various levels of government. Author Larry N. Gerston examines the historical and philosophical underpinnings of federalism; the various "change events" that have been involved in defining America's unique set of federal principles over time; and the vertical, horizontal, and international dimensions of federalism in the United States today. The result is a book examining the ways in which institutional political power is both diffused and concentrated in the United States.*

Cracking the AP U. S. Government and Politics, 2004-2005

American Government

"Published by OpenStax College, American Government is designed to meet the scope and sequence requirements of the single-semester American Government course. This title includes innovative features designed to enhance student learning, including Insider Perspective features and a Get Connected module that shows students how they can get engaged in the political process. The book provides an important opportunity for students to learn the core concepts of American Government and understand how those concepts apply to their lives and the world around them. Our American Government textbook adheres to the scope and sequence of introductory American government courses nationwide. We have endeavored to make the workings of American Government interesting and accessible to students while maintaining the conceptual coverage and rigor inherent in the subject at the college level. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project."--BC Campus website.

The Changing Constitution

Oxford University Press, USA *Since its first edition in 1985, The Changing Constitution has cemented its reputation for providing concise, scholarly and thought-provoking essays on the key issues surrounding the UK's constitutional development, and the current debates around reform. The ninth edition of this highly successful volume is published at a time of accelerated constitutional change. This collection of essays brings together fourteen expert contributors to offer an invaluable source of material and analysis for all students of constitutional law and politics. It clarifies the scope of the powers exercised by central, devolved and local governments within the UK, and the relationship between Britain, the EU and other regional and international legal systems.*

The Jurisprudence of Constitutional Conflict in the European Union

Oxford University Press A comparative and comprehensive account of the jurisprudence of constitutional conflict between the Court of Justice and national courts with the power of constitutional review. This monograph addresses the incidences of, and reasons for, constitutional clashes in the application and enforcement of EU law.

Cato Handbook For Policymakers

7th Edition

Cato Institute Now in its seventh edition, the Cato Handbook for Policymakers sets the standard in Washington for reducing the power of the federal government and expanding freedom. The 63 chapters—each beginning with a list of major policy recommendations—offer issue-by-issue blueprints for promoting individual liberty, free markets, and peace. Providing both in-depth analysis and concrete recommendations, Cato's Handbook is an invaluable resource for policymakers and anyone else interested in securing liberty and limiting government.

Modern Nigerian Constitutional Law

Practices, Principles and Precedents

Malthouse Press Modern Nigerian Constitutional Law: Practices, Principles and Precedents has fifteen chapters covers not only the traditional core topics in constitutional law, but also the generally neglected ones. In chapter one, the author examines some basic issues in Nigerian constitutional law, and in chapter two the supremacy of the Constitution is examined. Also examined in this book are federalism, local government, fundamental rights, the fundamental rights enforcement procedure, the legislature, the executive, the judiciary, elections, INEC, and political parties. Although primarily intended as a textbook for students, the practitioner and the judge will find it refreshingly rewarding.

Understanding Modern Nigeria

Ethnicity, Democracy, and Development

Cambridge University Press An introduction to the politics and society of post-colonial Nigeria, highlighting the key themes of ethnicity, democracy, and development.

The questions have been selected on the basis of the various types of questions being asked in the various exams.

The United Kingdom and The Federal Idea

Bloomsbury Publishing How should political power be divided within and among national peoples? Is the nineteenth-century theory of the sovereign and unitary State still fit for purpose in the twenty-first century? If not, can federalism provide a viable alternative model? This collection looks at federalism from the perspective of constitutional law. Taking the United Kingdom as a case study, Part One tracks the historical evolution of the 'Union' and explores the various expressions of federalism that emerged between the eighteenth and twentieth centuries. Part Two then assesses the experience of sovereignty-sharing with other nations in the context of international cooperation. Drawing on the expertise of the foremost commentators in their field, *The United Kingdom and the Federal Idea* provides a timely and reflective evaluation of how constitutional authority is being re-ordered within and beyond the United Kingdom.
