Just Mercy

A Story of Justice and Redemption

One World #1 NEW YORK TIMES BESTSELLER • NOW A MAJOR MOTION PICTURE STARRING MICHAEL B. JORDAN AND JAMIE FOXX • A powerful true story about the potential for mercy to redeem us, and a clarion call to fix our broken system of justice—from one of the most brilliant and influential lawyers of our time. “[Bryan Stevenson’s] dedication to fighting for justice and equality has inspired me and many others and made a lasting impact on our country.”—John Legend NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • Named One of the Best Books of the Year by The New York Times • The Washington Post • The Boston Globe • The Seattle Times • Esquire • Time Bryan Stevenson was a young lawyer when he founded the Equal Justice Initiative, a legal practice dedicated to defending those most desperate and in need: the poor, the wrongly condemned, and women and children trapped in the farthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man who was sentenced to die for a notorious murder he insisted he didn’t commit. The case drew Bryan into a tangle of conspiracy, political machination, and legal brinkmanship—and transformed his understanding of mercy and justice forever. Just Mercy is at once an unforgettable account of an idealistic, gifted young lawyer’s coming of age, a moving window into the lives of those he has defended, and an inspiring argument for compassion in the pursuit of true justice. Winner of the Carnegie Medal for Excellence in Nonfiction • Winner of the NAACP Image Award for Nonfiction • Winner of a Books for a Better Life Award • Finalist for the Los Angeles Times Book Prize • Finalist for the Kirkus Reviews Prize • An American Library Association Notable Book “Every bit as moving as To Kill a Mockingbird, and in some ways more so . . . a searing indictment of American criminal justice and a stirring testament to the salvation that fighting for the vulnerable sometimes yields.”—David Cole, The New York Review of Books “Searing, moving . . . Bryan Stevenson may, indeed, be America’s Mandela.”—Nicholas Kristof, The New York Times “You don’t have to read too long to start cheering for this man. . . . The message of this book . . . is that evil can be overcome, a difference can be made. Just Mercy will make you upset and it will make you hopeful.”—Ted Conover, The New York Times Book Review “Inspiring . . . a work of style, substance and clarity . . . Stevenson is not only a great lawyer, he’s also a gifted writer and storyteller.”—The Washington Post “As deeply moving, poignant and powerful a book as has been, and maybe ever can be, written about the death penalty.”—The Financial Times “Brilliant.”—The Philadelphia Inquirer

Politics of Nature

Harvard University Press A major work by one of the more innovative thinkers of our time, *Politics of Nature* does nothing less than establish the conceptual context for political ecology--transplanting the terms of ecology into more fertile philosophical soil than its proponents have thus far envisioned. Bruno Latour announces his project dramatically: "Political ecology has nothing whatsoever to do with nature, this jumble of Greek philosophy, French Cartesianism and American parks." Nature, he asserts, far from being an obvious domain of reality, is a way of assembling political order without due process. Thus, his book proposes an end to the old dichotomy between nature and society--and the constitution, in its place, of a collective, a community incorporating humans and nonhumans and building on the experiences of the sciences as they are actually practiced. In a critique of the distinction between fact and value, Latour suggests a redescription of the type of political philosophy implicated in such a "commonsense" division--which here reveals itself as distinctly uncommonsensical and in fact fatal to democracy and to a healthy development of the sciences. Moving beyond the modernist institutions of "mononaturalism" and "multiculturalism," Latour develops the idea of "multinaturalism," a complex collectivity determined not by outside experts claiming absolute reason but by "diplomats" who are flexible and open to experimentation. Exploring Common Worlds Time's Two Arrows The Learning Curve The Third Power and the Question of the State The Exercise of Diplomacy War and Peace for the Sciences Conclusion: What Is to Be Done? Political Ecology! Summary of the Argument (for Readers in a Hurry...) Glossary Notes Bibliography Index From the book: What is to be done with political ecology? Nothing.

What is to be done? Political ecology! All those who have hoped that the politics of nature would bring about a renewal of public life have asked the first question, while noting the stagnation of the so-called "green" movements. They would like very much to know why so promising an endeavor has so often come to naught. Appearances notwithstanding, everyone is bound to answer the second question the same way. We have no choice: politics does not fall neatly on one side of a divide and nature on the other. From the time the term "politics" was invented, every type of politics has been defined by its relation to nature, whose every feature, property, and function depends on the polemical will to limit, reform, establish, short-circuit, or enlighten public life. As a result, we cannot choose whether to engage in it surreptitiously, by distinguishing between questions of nature and questions of politics, or explicitly, by treating those two sets of questions as a single issue that arises for all collectives. While the ecology movements tell us that nature is rapidly invading politics, we shall have to imagine - most often aligning ourselves with these movements but sometimes against them - what a politics finally freed from the sword of Damocles we call nature might be like.

The Discovery of Insulin

University of Toronto Press **The discovery of insulin at the University of Toronto in 1921-22 was one of the most dramatic events in the history of the treatment of disease. In this engaging and award-winning account, historian Michael Bliss recounts the fascinating story behind the discovery of insulin - a story as much filled with fiery confrontation and intense competition as medical dedication and scientific genius. Originally published in 1982 and updated in 1996, The Discovery of Insulin has won the City of Toronto Book Award, the Jason Hannah Medal of the Royal Society of Canada, and the William H. Welch Medal of the American Association for the History of Medicine.**

Conditional Cash Transfers

Reducing Present and Future Poverty

World Bank Publications **Conditional Cash Transfer (CCT) programs aim to reduce poverty by making welfare programs conditional upon the receivers' actions. That is, the government only transfers the money to persons who meet certain criteria. These criteria may include enrolling children into public schools, getting regular check-ups at the doctor's office, receiving vaccinations, or the like. They have been hailed as a way of reducing inequality and helping households break out of a vicious cycle whereby poverty is transmitted from one generation to another. Do these and other claims make sense? Are they supported by the available empirical evidence? This volume seeks to answer these and other related questions. Specifically, it lays out a conceptual framework for thinking about the economic rationale for CCTs; it reviews the very rich evidence that has accumulated on CCTs; it discusses how the conceptual framework and the evidence on impacts should inform the design of CCT programs in practice; and it discusses how CCTs fit in the context of broader social policies. The authors show that there is considerable evidence that CCTs have improved the lives of poor people and argue that conditional cash transfers have been an effective way of redistributing income to the poor. They also recognize that even the best-designed and managed CCT cannot fulfill all of the needs of a comprehensive social protection system. They therefore need to be complemented with other interventions, such as workfare or employment programs, and social pensions.**
