This is a fully updated edition of the hugely successful OSCEs for the MRCS Part B: A Bailey and Love Revision Guide. The content has been revised in line with recent changes to the examination, such as the introduction of microbiology and applied surgical sciences and changes from patient safety to clinical and procedural skills. Popular with trainee surgeons preparing for the oral element of the MRCS (the objective structured clinical examination, or OSCE), this revision guide will maximise the chances of success in surgical examinations. **Essential Revision Notes Frcs Urol**. This, along with Book 2, is the essential revision book for candidates preparing for the Intercollegiate FRCs (Urol) examination. **Essential Radiological Anatomy for the MRCS** Cambridge University Press. Over recent years the MRCS viva examination has increasingly made use of radiological imaging to facilitate the discussion of anatomy relevant to surgical practice. It is rare for junior doctors to receive adequate exposure to radiology in their day-to-day surgical practice, which makes preparation for this part of the examination difficult. For many, examinations are stressful. The last thing a candidate needs is to be faced with unfamiliar radiological images. This review of surgically relevant radiological imaging aims to prevent initial uncertainties and will allow candidates to discuss relevant anatomy and score valuable points. An invaluable addition to any revision plan, this title also: • highlights typical anatomy viva questions • familiarizes candidates with a range of images of differing modalities (plain film, fluoroscopy, computed tomography and magnetic resonance imaging) • introduces different planes of imaging, enabling candidates to deal with unusual coronal or sagittal views with confidence • gives concise but detailed notes for quick consultation.

MRCS Part A: Essential Revision Notes Applied Basic Science for Basic Surgical Training E-Book Elsevier Health Sciences This title is directed primarily towards health care professionals outside of the United States. It has been written to encompass the basic anatomy, physiology and pathology required by the syllabus of the UK Royal Colleges and the Intercollegiate Surgical Curriculum Project. For this Second Edition many of the chapters have been updated, especially the chapters on immunology, basic microbiology, the endocrine and locomotor systems and the breast. An attempt has been made throughout to indicate the clinical relevance of the facts and the reason for learning them. There are several new contributors to the author team, all of whom are experts in their field and many of them are, or have been, experienced examiners at the various UK Royal Colleges. Brings together three basic sciences in one book and presents them in an integrated format. Presents the sciences at the right level for surgical trainees. Written in a straightforward and readable style. Thoroughly revised to take account of latest changes in basic surgical training, especially the chapters on immunology, basic microbiology, the endocrine and locomotor systems and the breast MRCS Essential Notes Best Revision Notes for MRCS FRCS General Surgery Viva Topics and Revision Notes Radcliffe Publishing What are the indications for necrosectomy? How you perform an EUA for acute peri-anal sepsis? What do you understand by the term Early Goal-Directed Therapy (EGDT)? Remember: this is a consultant's exam, and giving a range of options is not good enough. You must tell the examiner what you as a consultant are going to do. The FRCS is a uniquely challenging prospect; highly detailed, wide-ranging and encompassing both theory and practice. Preparation for this exam can be very difficult, and resources tailored to it are scarce. As the consolidated notes of a recent successful candidate, this book is an essential resource when preparing for the viva. The wide variety of questions require you to define, diagnose or choose between treatment options, while MCQs and SBAs help you to objectively evaluate your progress - a unique supplement to your study plan. Answers provided are comprised of an invaluable combination of detailed written answers and lists that will remind you of key points and help you structure your preparation. DrExam Part B MRCS OSCE Revision Guide Book 1 Applied Surgical Science and Critical Care, Anatomy and Surgical Pathology, Surgical Skills and Patient Safety Libri Pub Limited Presented in a structured question-and-answer format, the first book of this comprehensive reference addresses the revised syllabus of the Membership of the Royal College Surgeons' (MRCS) Objective Structured Clinical Examination (OSCE). Beneficial to MRCS OSCE candidates as well as to surgeons, doctors, and medical practitioners, this didactic guide covers the important aspects of surgical radiology, applied surgical science, critical care, anatomy, surgical pathology, operative surgery, surgical skills, principles of surgery, and patient safety. Chapters on communication skills, ethics, and history-taking skills are also included. Essential Revision Notes for Frcs (Urol) Book 2: The Essential Revision Book for Candidates Preparing for the Intercollegiate Frcs (Urol) Examination This, along with Book 1, is the essential revision book for candidates preparing for the Intercollegiate FRCS (Urol) examination. Surgical trainees have very busy clinical duties and along with personal commitments this means that time for exam revision is very tight and often done during tired evenings and weekends. Essential Revision Notes for FRCS (Urol) - Book 2 provides a precious concise collection of facts, information and guidance for the benefit of all urology trainees and in particular those sitting the FRCS (Urol) who therefore already possess undergraduate medical knowledge and basic training in surgery. It is designed to be a highly effective tool to pass the FRCS (Urol) and, along with its sister volume, Book 1, forms the only set of textbooks in the world that separates urological knowledge into the 8 different stations of the exam. All content is neatly summarised into bite-size paragraphs, thus removing the task of information gathering and synthesizing which is time-consuming for the

busy trainee. Diagrams and tables display information in a visually attractive and simplified way to aid trainee revision. About the author Jack Donati-Bourne is a final year NTN urology trainee in the West Midlands Deanery. He was raised in Rome (Italy) but moved to the UK to study Medicine, qualifying at the University of Birmingham in 2010, later achieving a Merit Award for an MSc in Anatomy at the same institution. He successfully proceeded to obtain Membership (MRCS, 2013) and subsequently Fellowship of the Royal College of Surgeons of England (FRCS Urol., 2019). He has written more than 10 first-author publications in peer-reviewed journals and led presentations on an international surgical platform in 8 different countries. Jack Donati-Bourne has a passion to teach, encourage and inspire trainees and has been invited to lead an MRCS revision session in the Royal College of Surgeons in London, moderated undergraduate exams for the University of Birmingham Medical School and taught on the FRCS (Urol) Rapid Revision Course. He is an avid supporter of Inter Milan and of the "Azzurri." DrExam Part B MRCS OSCE Revision Guide Book 2 Clinical Examination, Communication Skills and History Taking Libri Pub Limited Presented in a structured question-and-answer format, the second book in this comprehensive reference addresses the revised syllabus of the Membership of the Royal College Surgeons' (MRCS) Objective Structured Clinical Examination (OSCE). Beneficial to MRCS OSCE candidates as well as to surgeons, doctors, and medical practitioners, this didactic guide presents approved, structured clinical-examination protocols supplemented with a clinical-examination DVD. Chapters on communication skills, ethics, and history-taking skills are also included.
