MANAGEMENT ACCOUNTING AND CONTROL

TOOLS AND CONCEPTS IN A CENTRAL EUROPEAN CONTEXT

John Wiley & Sons Management accounting has been the basic toolbox in business administration for decades. Today it is an integral part of all curricula in business education and no student can afford not to be familiar with its basic concepts and instruments. At the same time, business in general, and management accounting in particular, is becoming more and more international. English clearly has evolved as the "lingua franca" of international business. Academics, students as well as practitioners exchange their views and ideas, discuss concepts and communicate with each other in English. This is certainly also true for management accounting and control. Management Accounting is becoming more and more international. *Management Accounting and Control* is a new textbook in English covering concepts and instruments of management accounting at an introductory level (primarily at the Bachelor level, but also suited for general management and MBA courses due to a strong focus on practical relevance). This textbook covers all topics that are relevant in management accounting in business organizations that are typically covered in German and Central European Bachelor courses on management accounting and control. After a general introduction to the field of management accounting and control the book discusses cost management as an extension of cost accounting. Typical cost management instruments such as target costing, life cycle costing and process-based costing approaches are explained in detail. Differences between Anglo-American activity-based costing (ABC) and German process-based costing are highlighted. The book then turns to an extensive discussion of planning and budgeting tasks in management accounting with a strong focus on the practical application of the topic such as developing a budget in practice. Another chapter is dedicated to a comparison of traditional budgeting with modern /alternative budgeting approaches. A major part of the book is dedicated to the broad area of performance management. The relevance of financial statement information for performance management purposes is discussed in detail. In addition, the most widely spread financial performance indicators are illustrated using real-world examples. The book also includes detailed content on value-based management control concepts. In a consecutive chapter, performance measurement is linked with strategy while extensively discussing the Balanced Scorecard as a key tool in strategic performance management. The remaining parts of the book deal with

management reporting as one of the main operative tasks in management accounting practice. The book closes with insight into new fields and developments that currently influence management accounting practices and research and promise to play an increasingly important role in the future.

CORPORATE FINANCE

Cengage AU Corporate Finance, 3e offers a dynamic, modern and practical approach that illustrates how financial management really works. It features up-to-date content including a focus on ethics in finance, following the Australian Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry. This resource is distinguished by the cash-flow 'arc' of the narrative, which gives a practical learning path, and the use of real options - a practical analysis tool that is used in corporate finance. Students are provided with an engaging and contemporary learning path, giving them realistic preparation for a career in finance. The strong five-part framework of the book is supported by integrated online elements and easy-to-read chapter narratives. PREPARE OPERATIONAL BUDGETS

Cengage AU Prepare Operational Budgets is for students of the Certificate IV in Accounting and has been specifically developed to meet the requirements of the unit of competency: Prepare Operational Budgets. Content is presented in bite-sized segments to allow learners to access individual parts at their own pace, and detailed mapping to learning outcomes is provided throughout the text. A complete tool for

learning and assessment for both students and instructors, the text includes an assessment tool as an appendix, which has been developed and mapped to meet all essential requirements of assessment. An end-of-chapter developing case study task provides students with practical tasks and activities that build on the concepts covered in previous chapters, enabling a scaffolded approach to the application, and holistic understanding of preparing operational budgets using a realistic case study business scenario.

OECD MULTI-LEVEL GOVERNANCE STUDIES ALIGNING REGIONAL AND LOCAL BUDGETS WITH GREEN OBJECTIVES SUBNATIONAL GREEN BUDGETING PRACTICES AND GUIDELINES

SUBNATIONAL GREEN BUDGETING PRACTICES AND GUIDELINES

OECD Publishing Green budgeting is emerging at subnational levels as an important tool for regions and cities to use to align their expenditure and revenues with their green objectives, and enhance the transparency and accountability of their climate and environmental action. It is also a tool that subnational governments can use to prioritise low-carbon investments and identify funding gaps, as well as to mobilise additional sources of both private and public climate finance.

SPORT FINANCE

Human Kinetics Publishers "The purpose of this text is to give a broad overview so that the reader can understand what drives the financial success or failure of any entity in the sport industry. It grounds students in foundational financial principles and concepts and demonstrates how they are applied in real-world sport management settings. This book takes practical applications a step further to encourage students to take a strategic organizational perspective to understanding sport finance. Readers will not only understand the what and how of sport finance, but also the why, creating a more valuable and accessible learning experience and better preparation for future careers. It provides readers with the basic skills needed to help raise, manage, and spend money in sport settings"--

SUMMARY OF THOMAS ITTELSON'S FINANCIAL STATEMENTS

Everest Media LLC Please note: This is a companion version & not the original book. Sample Book Insights: #1 The first principle is that there is a business entity separate from its owners; this entity is referred to as a company. The second principle is that all transactions must be recorded, regardless of importance, in the books. #2 The accountant's job is to translate the business's financial data into a form that is suitable for management and investors. The process of doing this is called accounting. #3 The generally accepted accounting principles, or GAAP, are the set of rules and guidelines that govern how companies prepare their financial statements.
