STUDY GUIDE TO ACCOMPANY MATERNAL AND CHILD HEALTH NURSING

CARE OF THE CHILDBEARING AND CHILDBEARING FAMILY

Lippincott Williams & Wilkins Designed to be used by the student together with the sixth edition of Maternal and child health nursing by Adele Pillitteri.

MATERNAL CHILD NURSING CARE

Mosby Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN[®] examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to

know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions. NEW! New chapter on pediatric cancer gives you the most up-to-date information on the latest topics. EXPANDED! Additional information on sexuality in the maternity section. EXPANDED! More content on spirituality in the family, culture, and spiritual chapters. EXPANDED and UPDATED! New content about LGBTQ+ included in the Transition to Parenthood chapter. NEW! Information on victims of sexual abuse as parents and human trafficking helps prepare you to handle these delicate issues. NEW and UPDATED! Case studies emphasize interprofessional care, demonstrating how nursing must collaborate with other health care disciplines to provide the most comprehensive care possible to women and children. UPDATED! Nursing Care Plans now incorporate case studies to personalize interventions and promote critical thinking.

MATERNAL CHILD NURSING CARE - TEXT AND SIMULATION LEARNING SYSTEM

Mosby Incorporated This money-saving package includes the 4th edition of Maternal Child Nursing Care - Text and Simulation Learning System.

MATERNAL & CHILD HEALTH NURSING

Trusted by generations of nursing educators and updated to meet the needs of today's nursing students, Maternal & Child Health Nursing, 9th Edition, presents maternal-newborn and child healthcare not as two separate disciplines, but as a continuum of knowledge. This proven, approachable text employs a nursing process framework and combines clear, accessible content with a wide range of engaging learning aids to help students master essential concepts and build the skills for success in today's changing healthcare environment. This extensively revised 9th Edition reflects the latest evidence-based research, recent changes in healthcare delivery, and the importance of meeting the culturally diverse needs of various populations, guiding students to a practical understanding of emerging approaches while promoting a sensitive, holistic outlook on nursing practice

STUDY GUIDE TO ACCOMPANY MATERNAL AND CHILD HEALTH NURSING

Lippincott Williams & Wilkins This Study Guide to accompany the Seventh Edition of Maternal & Child Health Nursing, by Adele Pillitteri, is designed to help students practice and retain the knowledge from the textbook, and it is structured to integrate that knowledge and give students a basis for applying it in their nursing practice.

MATERNAL & CHILD NURSING CARE

Pearson This dynamic, up-to-date text offers an integrated framework and philosophy for teaching the nursing of childbearing families and nursing of children together. Accurate, readable, and concise, Maternal & Child Nursing Care supports faster and more efficient learning in briefer, more compressed courses; while helping students develop essential skills for fast-changing healthcare environments. Core themes in this edition include family-centered and community-based care; health promotion (including Healthy People 2020); patient and family education; clinical reasoning; evidence-based practice, and developing cultural competence. This edition adds new Safety Alerts; more coverage of pain as the fifth vital sign; greater focus on care of families where a child is dying; and updated content on assessment, nutrition, communication, and many other key topics. Multiple pedagogical tools help students focus both learning and review, including intuitive Pathophysiology Illustrated visuals; Family Quotes presenting the family's perspective; Learning Outcomes and Critical Concept Review Features; Key Terms, and an online audio glossary.

MATERNAL CHILD NURSING CARE

Mosby Incorporated This money saving package includes the Perry: Maternal Child Nursing Care, 4th edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for Perry's Maternal Child Nursing Care, 4th edition. **STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.** The Simulation Learning System (SLS) integrates simulation technology into your combined maternity and pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Perry: Maternal Child Nursing Care, 4th edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

STUDY GUIDE FOR PERRY'S MATERNAL CHILD NURSING CARE IN CANADA, E-BOOK

Elsevier Health Sciences Thinking Critically case-based activities require students to apply the concepts found in the chapters to solve problems, make clinical judgement decisions concerning care management, and provide responses to patient questions and concerns. *Reviewing Key Concepts* questions in various formats give students ample opportunities to assess their knowledge and comprehension of information covered in the text. Matching, fill-in-the-blank, true/false, short-answer, and multiple-choice activities help students identify the core content of each chapter and test their understanding. Learning Key Terms matching and fill-in-the-blank questions let students test their ability to define all key terms highlighted in the corresponding textbook chapter. Perforated pages allow you to use activities for graded assignments. Answer key at the end of the book includes answers to all questions.

MATERNAL CHILD NURSING CARE IN CANADA - E-BOOK

NEW! Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice.

MATERNAL & CHILD HEALTH NURSING

CARE OF THE CHILDBEARING & CHILDBEARING FAMILY

Lippincott Williams & Wilkins Growing research shows that many children from immigrant and refugee families are not doing well in school, due in part to linguistic and cultural disadvantages. Teaching dual-language learners requires cultural sensitivity, an understanding of language acquisition, and intentional teaching strategies. Combining research and techniques, this resource helps early childhood educators support dual-language learners as they develop the skills necessary for school readiness and success.

MATERNAL & CHILD HEALTH NURSING

CARE OF THE CHILDBEARING & CHILDBEARING FAMILY

Lippincott Williams & Wilkins A respected authority updated for today's changing healthcare environment, *Maternal & Child Health Nursing, 9th Edition*, equips students for success by presenting maternal-newborn and child healthcare not as two separate disciplines, but as a continuum of knowledge. This extensively revised 9th Edition integrates a nursing process framework, an approachable organization, the latest evidence-based research, and engaging learning aids to ensure a mastery of essential concepts and cultivate the skills for successful nursing practice.

CHILD HEALTH NURSING

CARE OF THE CHILD AND FAMILY

his brand new book gives your students a holistic approach to pediatric care that views wellness and illness as family-centered events. Accessible and reader friendly, the book underscores the importance of child development in the planning of nursing care; encourages child health promotion as a foundation for healthy adult living; and examines both the physical and emotional effects of illness on children. The book's emphasis on nursing communication, family education, and culturally sensitive care combines with nursing process overviews, an outcomes orientated approach, critical thinking exercises, and step by step coverage of therapeutic procedures to produce the most effective and practical resource in the field

LEGAL ASPECTS OF MATERNAL CHILD NURSING PRACTICE

CONCEPTS AND STRATEGIES IN RISK MANAGEMENT

Prentice Hall There is a trend toward greater nursing liability due to tort reform, the increased litigiousness of society, & increased professional accountability for nursing practice. Legal Aspects of Maternal-Child Nursing Practice gives instructors, students, & professional nurses a better understanding of these legal issues & how to prevent risk. As the practicing nurse is often the main line of defense against patient injury & legal liability, this text offers a model for professional nursing practice to help nurses actively prevent injury & legal liability. Features * Co-editors have over 25 years of experience in reviewing nursing malpractice cases. * Many expert & well-known contributors are featured to provide a complete bedside risk management system for use in a variety of inpatient & outpatient settings. * A conceptual overview of risk management, quality assurance, & total quality management prepares the nurse to take a proactive approach to preventing injury & litigation. * Actual legal cases are used to demonstrate appropriate risk management intervention strategies in three key specialty areas: Obstetrical, Neonatal, & Pediatrics. Contents Section I: A Conceptual Overview Chapter 1: Accountability for Professional Nursing Practice * Chapter 2: Empowering Women: A Theoretical Perspective * Chapter 3: Empowering Women in the Practice Setting * Chapter 4: Maternal-Child Nursing & the Law * Chapter 5: Risk Management & Continuous Quality Improvement * Chapter 6: A Model for Professional Nursing Practice Section II: Model Application in Obstetrical Care Chapter 7: Low-Risk Obstetrical Care * Chapter 8: High-Risk Obstetrical Care Section III: Model Application in Neonatal Care Chapter 9: Low-Risk Neonatal Care: Level I Nursery * Chapter 10: Medium-Risk Neonatal Care: Level II Nursery * Chapter 11: High-Risk Neonatal Care: Level III Nursery Section IV: Model Application in Pediatric Care Chapter 12: Outpatient Pediatric Care * Chapter 13: Inpatient Pediatric Care * Chapter 14: Intensive Pediatric Care Appendix A: NANDA Nursing Diagnoses Appendix B: Professional Nursing Organizations Appendix C: High Risk Factors

MATERNAL CHILD NURSING CARE

MATERNAL & CHILD HEALTH NURSING

CARE OF THE CHILDBEARING & CHILDREARING FAMILY

Prepare for your role as a maternity and child health care nurse with this updated Seventh Edition of Adele Pillitteri's highly respected text! Presenting maternal-newborn and child health care not as two separate disciplines, but as a continuum of knowledge, the book presents the experience of wellness and illness as family-centered events and pregnancy and childbirth as periods of wellness in a woman's life. Using a nursing process framework, the book's clear, easy-to-understand presentation and wide range of built-in learning aids is designed throughout to help you master important concepts and skills. Develop critical thinking skills and make the leap from theory to practice through threaded Case Studies that follow a community of maternity and pediatric clients through each chapter. Build skills in nursing care planning with easy-to-understand, integrated coverage in the text, enhanced by an online Care Plan maker. Prepare for your role as a coordinator of care through Interprofessional Care Maps that demonstrate the nursing process. Learn to conduct accurate client assessments with Nursing Care Planning Using Assessment Boxes that give you specific "how to" tips. Broaden your knowledge of correct administration, potential complications, indications, and contraindications of drugs through Nursing Care Planning Based on Respect for Pharmacology boxes that ensure accuracy when administering drugs. Learn to anticipate and manage various clinical challenges with confidence through open-ended "What If?" questions. Prepare for sound practice with the step-by-step guidance provided in Nursing Care Planning Using Procedures Boxes. Build your skills in culturally sensitive practice with Nursing Care Planning Based on Effective Communication and Nursing Care Planning to Respect Cultural Diversity Boxes that promote effective, culturally sensitive communication with diverse clients. Get involved in key concepts through Critical Thinking questions that promote problem-solving and discussion. Assess your progress as you study using Checkpoint questions interspersed in each chapter. See how research informs the most current practices with Evidence-Based Practice Check Points that summarize research on topics related to maternal and child health care and connect it to the chapter case study. Understand the importance of the nurse's role in accomplishing the health care goals of our nation through Nursing Care Planning Based on 2020 National Health Goals features.

MATERNAL CHILD NURSING CARE IN CANADA - E-BOOK

Elsevier Health Sciences Featuring the most accurate, current, and clinically relevant information available, Perry's Maternal Child Nursing Care in Canada combines essential maternity and pediatric nursing information in one text. Comprehensive coverage includes promotion of wellness and the care for persons experiencing common health concerns throughout the lifespan, care in childbearing, as well as the health care of children and child development in the context of the family. Health concerns, including physiological dysfunctions and special needs and illnesses, are also featured. This text provides a family-centred care approach that recognizes the importance of collaboration with families when providing care. Medication Alerts stress medication safety concerns for better

therapeutic management. Safety Alerts highlighted and integrated within the content draw attention to developing competencies related to safe nursing practice. Research Focus boxes identify best practices by presenting evidence and how to apply the knowledge learned. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Clinical reasoning case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Cultural Awareness boxes explore beliefs and practices about pregnancy, childbirth, parenting, women's health concerns, and caring for sick children. Evidence-Informed Practice boxes highlight findings that confirm effective practices or that identify practices with unknown, ineffective, or harmful effects. Emergency boxes alert you to emergency situations and guide you step-by-step through emergency procedures. Family-Centred Care boxes highlight the needs or concerns of families that you should consider in providing family-centred care. Guidelines boxes outline nursing procedures in an easy-to-follow format. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Medication Guide boxes include key information about medications used in maternity and newborn care, including their indications, adverse effects, and nursing considerations. Patient Teaching boxes assist you in helping patients and families become involved in their own care with optimal outcomes.

DISEASE CONTROL PRIORITIES, THIRD EDITION (VOLUME 2)

REPRODUCTIVE, MATERNAL, NEWBORN, AND CHILD HEALTH

World Bank Publications The evaluation of reproductive, maternal, newborn, and child health (RMNCH) by the Disease Control Priorities, Third Edition (DCP3) focuses on maternal conditions, childhood illness, and malnutrition. Specifically, the chapters address acute illness and undernutrition in children, principally under age 5. It also covers maternal mortality, morbidity, stillbirth, and influences to pregnancy and pre-pregnancy. Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood, in particular, the overlap and commonality with the child development volume. The DCP3 evaluation of these conditions produced three key findings: 1. There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy, unsafe abortion, nonsexually transmitted infections, infertility, and violence against women. 2. Investments in the continuum of care can have significant returns for improved and equitable access, health, poverty, and health systems. 3. There is a large difference in how RMNCH conditions affect different income groups; investments in RMNCH can lessen the disparity in terms of both health and financial risk.

MATERNAL-CHILD NURSING - E-BOOK

Elsevier Health Sciences Build your skills in the science and art of maternity and pediatric nursing! *Maternal-Child Nursing, 6th Edition* makes it easy to understand the essentials of women's health, maternity, and children's nursing care. It simplifies the steps of the nursing process and relates them to care, helping you develop clinical judgment skills and provide safe, effective care in evidence-based practice. This edition adds case studies preparing you for the new Next Generation NCLEX® examination. Best of all, active learning tools and features make it fun to master nursing concepts, offering plenty of opportunities to apply your knowledge to the practice setting. Nursing Care Plans help students apply the nursing process to plan individualized care in the most common maternity and pediatric situations. Clinical Reference sections in pediatrics chapters provide basic information on disorders and their related anatomy and physiology, differences in body systems between children and adults, commonly used drugs, lab values, diagnostic tests, and procedures. Clinical Judgment boxes highlight situations designed to test clinical judgment skills. Health Promotion boxes highlight information needed to perform a comprehensive assessment of well infants and children at various ages. Safety Alerts emphasize what is important to remember when providing safe and optimal quality care. Pathophysiology boxes present an illustrated overview of illnesses and how to manage them. Want to Know boxes provide teaching guidelines, including sample answers for questions that are likely to be asked or topics that need to be taught. Communication Cues offer practical tips for verbal and nonverbal communication with patients and families. Glossary at the end of the book gives students quick access to all key terms and definitions. NEW! Next Generation NCLEX® (NGN) examination-style case studies expose students to how content will be tested in the exam; case studies are either single-situation or unfolding studies. NEW! Updated Drug Guides summarize the latest information on medications.

Elsevier Health Sciences Specially designed to parallel the material in Maternal-Child Nursing, 4th Edition, this user-friendly study guide provides valuable review of essential concepts and skills. Hands-on learning exercises and practical activities allow you to apply your knowledge to real-world scenarios. Learning exercises include multiple-choice, matching, true/false, and review questions, as well as case studies, critical thinking activities, clinical learning exercises, and key concepts. Active learning approach helps you understand complex processes, improve skills performance, and develop critical-thinking and clinical decision-making skills. Completely updated content matches the textbook and provides a comprehensive review of essential maternal-child concepts and skills.

MATERNAL CHILD NURSING CARE IN CANADA - E-BOOK

Elsevier Health Sciences Finally, a Canadian text for maternity and pediatrics nursing courses! Canadian contributors have ensured that Maternal Child Nursing Care in Canada provides just the "right amount" of maternity and pediatrics content. User-friendly, up-to-date coverage offers everything you need for success in the classroom, the clinical setting, and on the CRNE examination. UNIQUE! Nursing Process boxes offer quick access to nursing process information for major diseases and conditions. UNIQUE! Nursing Alerts point out critical information to consider when caring for patients. UNIQUE! Guidelines boxes outline instructions for skills or procedures in an easy-to-follow, step-by-step format. UNIQUE! Emergency boxes offer quick reference to emergency procedures for critical maternity and pediatric emergencies. UNIQUE! Home Care boxes offer helpful patient and family self-care guidelines for delivering effective care in the home environment. UNIQUE! Atraumatic Care boxes in the pediatric section illustrate how to provide competent nursing care without creating undue physical or psychological stress for pediatric patients, families, and nurses. UNIQUE! Community Focus boxes examine community issues and provide resources and guidance on caring for families outside the clinical

setting. UNIQUE! Cultural Awareness boxes address culturally competent care for patients with a variety of customs and beliefs. UNIQUE! Family-Centered Teaching boxes discuss the family's role and needs in caring for the patient. Fully revised to reflect Canadian nursing practice, Canadian cultural diversity, and Canadian best practice guidelines. Canadian contributors provide the right amount of maternity and pediatric coverage, all within a Canadian context for nursing care. The latest information in the field is incorporated throughout, including expanded coverage of the late preterm infant and fetal heart rate pattern identification. New content on evidence-informed practice illustrates how current research can be used to improve patient outcomes. New and consolidated content on pain assessment and management focuses on this key aspect of pediatric nursing.
