SAVITA: THE TRAGEDY THAT SHOOK A NATION

[Random House](#) **Seventeen weeks pregnant and facing a miscarriage, Savita Halappanavar and her husband Praveen walked into an Irish maternity ward in October 2012. Unwittingly, the couple also walked into that deeply controversial arena in which Ireland's legislative position on abortion remained unresolved. A week later, Savita was dead from septicaemia. Reports of her death and of the refusal to allow Savita a termination of her pregnancy sent shockwaves across Ireland and around the world. Once again the subject of abortion was catapulted to the very top of the agenda in Ireland. With the pro-life and pro-choice camps claiming the moral high ground, both sides in the bitterly contested battle sought to appropriate Savita's story and her image. In the midst of the ensuing rage and furore, the marches and protests, the threats and counter-threats that exploded across political and media platforms, Savita and the complete circumstances of her death were lost. In Savita: The Tragedy That Shook A Nation, Kitty Holland addresses this imbalance as she reveals the truth behind the headlines and explores many unanswered questions: Who was Savita? How significant was it that she was a non-Irish, non-Catholic woman in search of help on Irish soil? And how did her husband and her community's reaction to her death shape the parameters of the debate which followed? Holland's exposé also looks at how the tragic circumstances of Savita's death played a part in compelling the Irish Government to finally legislate on abortion and how activists on each side succeeded or failed in shaping that legislation.**

CYBER SEXY

RETHINKING PORNOGRAPHY

[Penguin Random House India Private Limited](#) In 1946, American judge Potter Stewart famously said, 'I can't define pornography, but I know it when I see it.' Over seventy years later, the reverberations of this sentence are still felt across the world. From proposed porn bans to religious morality to women's rights, the assumption is that porn has a single, knowable definition. But if one man's pornography is another woman's erotica is another person's sex tape, what really counts as porn? And who gets to do the counting? In this alternative conversation around digital sexual expression in India, Richa Kaul Padte takes readers on an intimate tour of the sexy internet. From camgirls to fanfiction writers, homemade videos to consent violations, Cyber Sexy is an unflinching deep dive into the messy terrain of what it means to seek out pleasure online. The question of whether or not something counts as porn is, ultimately, left up to the reader. After all, you'll know it when you see it, right?

POLICING HATE CRIME

UNDERSTANDING COMMUNITIES AND PREJUDICE

[Taylor & Francis](#) In a contemporary setting of increasing social division and marginalisation, Policing Hate Crime interrogates the complexities of prejudice motivated crime and effective policing practices. Hate crime has become a barometer for contemporary police relations with vulnerable and marginalised communities. But how do police effectively lead conversations with such communities about problems arising from prejudice? Contemporary police are expected to be active agents in the pursuit of social justice and human rights by stamping out prejudice and group-based animosity. At the same time, police have been criticised in over-policing targeted communities as potential perpetrators, as well as under-policing these same communities as victims of crime. Despite this history, the demand for impartial law enforcement requires police to change their engagement with targeted communities and kindle trust as priorities in strengthening their response to hate crime. Drawing upon a research partnership between police and academics, this book entwines current law enforcement responses with key debates on the meaning of hate crime to explore the potential for misunderstandings of hate crime between police and communities, and illuminates ways to overcome communication difficulties. This book will be important reading for students taking courses in hate crime, as well as victimology, policing, and crime and community.

JOOZHAN

AN UNTOUCHABLE'S LIFE

[Columbia University Press](#) Omprakash Valmiki describes his life as an untouchable, or Dalit, in the newly independent India of the 1950s. "Joozhan" refers to scraps of food left on a plate, destined for the garbage or animals. India's untouchables have been forced to accept and eat joozhan for centuries, and the word encapsulates the pain, humiliation, and poverty of a community forced to live at the bottom of India's social pyramid. Although untouchability was abolished in 1949, Dalits continued to face discrimination, economic deprivation, violence, and ridicule. Valmiki shares his heroic struggle to survive a preordained life of perpetual physical and mental persecution and his transformation into a speaking subject under the influence of the great Dalit political leader, B. R. Ambedkar. A document of the long-silenced and long-denied sufferings of the Dalits, Joozhan is a major contribution to the archives of Dalit history and a manifesto for the revolutionary transformation of society and human consciousness.

CRIMINAL LAW AND PRECRIME

LEGAL STUDIES IN CANADIAN PUNISHMENT AND SURVEILLANCE IN ANTICIPATION OF CRIMINAL GUILT

Routledge In Philip K. Dick's short story *Minority Report*, the institution of Precrime punishes people with imprisonment for crimes they would have committed had they not been prevented. With Dick's allegorical inspiration, the authors of *Criminal Law and Precrime: Legal Studies in Canadian Punishment and Surveillance in Anticipation of Criminal Guilt* posit that recent developments in Canadian law indicate a trend toward imposing punitive measures at increasingly earlier stages of the prosecutorial process. The result is a potentially new field of criminal management that could be characterized as "precrime"—particularly the use of the law as a technology of surveillance and prevention since "terror" became a justification for intervention. The authors note that as risk management logics (based in actuarial sciences) have shifted to precautionary ones (based in administrative sciences), the law has responded by developing techniques in the arena of criminal regulation in light of the "war on terror": the need to ensure security, the proliferation of digital data, and the development of drones, social networking, and cloud storage to gather personal data. The authors view shifts in criminal investigation; the substantive criminal law of sexual expression, conduct, and work; and civil forfeiture as emblematic of precrime populism. The unifying theme of these techniques is that they occur prior to state-identified crime, arise out of a precautionary philosophy, and seek to presume (or circumvent) criminality. The book is a provocative read for scholars and students in criminal law, policing, and surveillance, as well as for those interested in how areas of law, such as immigration, health, and anti-terrorism, are mobilizing the logics of risk and surveillance in new ways that emphasize precaution. The authors invite legal scholars to place the analytical lens of precrime on criminal and regulatory practices in Canada as well as other Western nations across the globe.
