# Kissing Madeline

**Lex Martin** What's the worst thing about wanting a sexy NFL football player? Everyone else wants him, too. After catching my boyfriend getting deep-throated by a cage girl, I've learned my lesson - never date a professional athlete. Never. Besides, I have more important things to worry about, like not blowing my shot to make it as a broadcast reporter. I won't let anything get in my way, not even the new "it boy" of the NFL and my hot-as-hell neighbor. What's the worst thing about getting death glares from his new neighbor? It doesn't make him want her any less. I've worked my ass off to make it to the pros. The last thing I need is the complication of a relationship, especially since my last one was a total train wreck. But I can't stop thinking about the feisty girl next door with the smart mouth. And I'd love nothing more than to show her what to do with that mouth. Friends with benefits might be the best idea he's ever had. Or the worst. **KISSING MADELINE**, the third book in The Dearest Series, can be read a standalone novel. This new adult romance is recommended for readers 18+ due to mature content. **ORDER OF BOOKS:** Dearest Clementine (Clementine & Gavin) Finding Dandelion (Dani & Jax) Kissing Madeline (Maddie & Daren)

## Security Interests in Intellectual Property

**Springer** Economic development increasingly depends to a large extent on innovation. Innovation is generally covered by intellectual property (IP) rights and usually requires extensive funding. This book focuses on IP and debt financing as a tool to meet this demand. This book clarifies the situation of the use of IP as collateral in practice through a survey conducted in Japan on IP and debt financing. Various obstacles in the proper use IP and debt financing are identified, and some projects to facilitate its use are illustrated. IP and

debt on a global scale, either by attracting foreign lenders or by collateralizing foreign IP rights, needs appropriate private international laws. This book analyzes such regulations in which the United Nations Commission on International Trade Law (UNCITRAL) has worked, paying due attention to the law of finance and insolvency law, as well as IP laws. However, further analysis is needed to identify under what conditions such solutions would show optimal effects. This book offers comprehensive analysis from an economic point of view.

## Designing and Evaluating Usable Technology in Industrial Research

## Three Case Studies

**Morgan & Claypool Publishers** This book is about HCI research in an industrial research setting. It is based on the experiences of two researchers at the IBM T. J. Watson Research Center. Over the last two decades, Drs. John and Clare-Marie Karat have conducted HCI research to create innovative usable technology for users across a variety of domains. We begin the book by introducing the reader to the context of industrial research as well as a set of common themes or guidelines to consider in conducting HCI research in practice. Then case study examples of HCI approaches to the design and evaluation of usable solutions for people are presented and discussed in three domain areas: - item Conversational speech technologies, - item Personalization in eCommerce, and - item Security and privacy policy management technologies In each of the case studies, the authors illustrate and discuss examples of HCI approaches to design and evaluation that worked well and those that did not. They discuss what was learned over time about different HCI methods in practice, and changes that were made to the HCI tools used over time. The Karats discuss trade-offs and issues related to time, resources, and money and the value derived from different HCI methods in practice. These decisions are ones that

need to be made regularly in the industrial sector. Similarities and differences with the types of decisions made in this regard in academia will be discussed. The authors then use the context of the three case studies in the three research domains to draw insights and conclusions about the themes that were introduced in the beginning of the book. The Karats conclude with their perspective about the future of HCI industrial research. Table of Contents: Introduction: Themes and Structure of the Book / Case Study 1: Conversational Speech Technologies: Automatic Speech Recognition (ASR) / Case Study 2: Personalization in eCommerce / Case Study 3: Security and Privacy Policy Management Technologies / Insights and Conclusions / The Future of Industrial HCI Research

## By Fire, By Water

**Other Press, LLC** Recipient of the Independent Publishers Award for Historical Fiction (Gold Medal), the Foreword Book of the Year Award for Historical Fiction (Bronze Medal), and an honorable mention in the category of General Fiction for the Eric Hoffer Award. Luis de Santángel, chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the suspicion and paranoia it inspires. When a dear friend's demise brings the violence close to home, Santángel is enraged and takes retribution into

his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Santángel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind. Feeding his curiosity about his past is his growing love for Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his reputation is worth and what he can sacrifice, one man offers him a chance he thought he'd lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de Santángel can help him. Within the dramatic story lies a subtle, insightful examination of the crisis of faith at the heart of the Spanish Inquisition. Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life.

## The National Historic Preservation Act

### Past, Present, and Future

**Routledge** Assessing fifty years of the National Historic Preservation Act (NHPA), passed in 1966, this volume examines the impact of this key piece of legislation on heritage practices in the United States. The editors and contributing authors summarize how we approached compliance in the past, how we approach it now, and how we may approach it in the future. This volume presents how federal, state, tribal entities, and contractors in different regions address compliance issues; examines half a century of changes in the level of inventory, evaluation and mitigation practices, and determinations of eligibility; describes how the federal and state agencies have changed their approach over half a century; the Act is examined from the Federal, SHPO, THPO, Advisory Council, and regional perspectives. Using case studies authored by well-known heritage professionals based in universities, private practice, tribes, and government, this volume provides a critical and constructive examination of the NHPA and its future prospects. Archaeology students and scholars, as well heritage professionals, should find this book of interest.

## Medical Anthropology

### A Biocultural Approach

**Oxford University Press, USA** Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.
