---

---

#### **THE ORIGINS OF THE AMERICAN DETECTIVE STORY**

---

McFarland Edgar Allan Poe essentially invented the detective story in 1841 with Murders in the Rue Morgue. In the years that followed, however, detective fiction in America saw no significant progress as a literary genre. Much to the dismay of moral crusaders like Anthony Comstock, dime novels and other sensationalist publications satisfied the public's hunger for a yarn. Things changed as the century waned, and eventually the detective was reborn as a figure of American literature. In part these changes were due to a combination of social conditions, including the rise and decline of the police as an institution; the parallel development of private detectives; the birth of the crusading newspaper reporter; and the beginnings of forensic science. Influential, too, was the new role model offered by a wildly popular British import named Sherlock Holmes. Focusing on the late 19th century and early 20th, this volume covers the formative years of American detective fiction. Instructors considering this book for use in a course may request an examination copy [here](#).

#### **A 21ST CENTURY CHALLENGE OF COMPROMISE**

---

Charles C Thomas Publisher Authors Franklin and Hein have witnessed firsthand difficulties experienced in some black communities. They use their knowledge to analyze and discuss the interactions between American policing, a subculture of the black community and the BLM movement. The authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot black men. It describes how blue on black shootings along with police tactics sometimes cause intense citizen responses through public statements, outbursts, and demonstrations. It begins with an examination of the differences between the black and white communities; how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another. Because of civil rights efforts American policing is going through a transformation. A change in policing tactics must be met with a re-evaluation of some cultural norms by the black community. They also discuss the lack of support by blacks shown to other blacks when there is an impression of being "not black enough." The authors believe in political correctness, but also believe that political correctness is harming the black community, because well-recognized negative issues in some communities are not being addressed to avoid criticism of black culture. In the final chapter the authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself. Finally, the authors believe that American policing understands its 21st century obligations and is taking steps to meet them.

## ASIAN AMERICAN ATHLETES IN SPORT AND SOCIETY

---

Routledge For more than a century, sporting spectacles, media coverage, and popular audiences have staged athletics in black and white. Commercial, media, and academic accounts have routinely erased, excluded, ignored, and otherwise made absent the Asian American presence in sport. This book seeks to redress this pattern of neglect, presenting a comprehensive perspective on the history and significance of Asian American athletes, coaches, and teams in North America. The contributors interrogate the sociocultural contexts in which Asian Americans lived and played, detailing the articulations of power and possibility, difference and identity, representation and remembrance that have shaped the means and meanings of Asian Americans playing sport in North America. This volume will be of interest to students and scholars of the Asian American experience, ethnic relations, and the history of sport.

## HISTORICAL BOUNDARIES, NARRATIVE FORMS

---

### ESSAYS ON BRITISH LITERATURE IN THE LONG EIGHTEENTH CENTURY IN HONOR OF EVERETT ZIMMERMAN

---

University of Delaware Press This collection of twelve essays by colleagues, students, and friends of Everett Zimmerman treats four topics that Zimmerman explored during his career: the representation of the self in narratives, the early British novel and related forms, their epistemological and generic borders, and their intellectual and cultural contexts. The collection is divided into two sections: Boundaries and Forms. The essays in Boundaries explore how epistemological and narrative distinctions between history and fiction meet or overlap in the novel's relationship to other forms, including providential history, travel narratives, utopias, autobiography, and visual art. In Forms, the contributors investigate fictional, historical, and material forms; the impact those cultural phenomena had on the meaning and value attributed to literary works; and how such forms arose in response to historical conditions. The essays describe the historical range of Zimmerman's work, beginning with Defoe and ending with Coetzee, and treat such key writers of the long eighteenth century as Fielding, Richardson, Walpole, Austen, and Scott. Bakersfield. Robert Mayer is Professor of English and Director of the Screen Studies Program at Oklahoma State University.

## THE AMERICAN ADRENALINE NARRATIVE

---

University of Georgia Press "The attempt to understand the desires related to radical, risky acts like climbing to 29,028 feet as well as the everyday participation in and fascination with extreme lifestyles lays at the heart of this book and the extreme adventure narratives it studies. The American Adrenaline Narrative identifies and examines such stories' desiring natures and considers how perilous outdoor adventure tales, what the author terms "adrenaline narratives," simultaneously promote and hinder ecological sustainability. To explore these interdependent desires, the manuscript defines and compares adrenaline narratives by a range of American authors writing after the first Earth Day in 1970, selected as a crucial watershed for the contemporary American environmental movement and for cultures of the extreme. The forty-plus years since the first Earth Day mark the rise in the popularity and marketing of all things extreme-including sports, jobs, travel, beverages, gum, makeovers, laundry detergent, and even the environmental movement itself. This book and the term "adrenaline narrative" provide a classification for and analysis of the rapidly growing and wildly popular collection of narratives-primarily nonfiction, autobiographical, or biographical accounts-focused on extreme sports, lifestyle, and travel that emerge into the popular consciousness during a time of environmental activism that, like the adrenaline narratives themselves, range from conservative to radical acts. While literary or artistic merit, as a result, is not Jacobson's primary impetus for identifying and studying adrenaline narratives, attention to narrative form plays a key role in understanding their ecological messages and the ways the accounts deftly exploit form to craft suspenseful, page-turning exploits. The author's methods to map the American eco-imagination via adrenaline narratives are grounded in the traditional literary practice of close reading analysis and in ecofeminism. The book surveys a range of popular and lesser-known primary texts by American authors, including bestselling books-such as Jon Krakauer's *Into Thin Air* and Aron Ralston's *Between a Rock and a Hard Place*-and lesser-known and read texts-such as Patricia C. McCairen's *Canyon Solitude*, Eddy L. Harris's *Mississippi Solo*, and Stacy Allison's *Beyond the Limits*. Jacobson primarily focuses on book-length nonfiction narratives; however, adrenaline narratives may also be found in print and online articles and magazines, feature length and short films, television shows, amateur videos, social networking sites, fiction, advertising, and blogs. Jacobson contends that these stories-whatever their format-comprise a distinctive genre because-unlike traditional nature, travel, and sports writing-adrenaline narratives sustain heightened risk or the element of the "extreme" within a natural setting. Additionally, reading these narratives as a separate genre provides important insight into the American environmental imagination's connection to masculinity and adventure"--

### **HOW AMERICANS MAKE RACE**

---

---

---

### **STORIES, INSTITUTIONS, SPACES**

---

Cambridge University Press How do people produce and reproduce identities? In *How Americans Make Race*, Clarissa Rile Hayward challenges what is sometimes called the 'narrative identity thesis': the idea that people produce and reproduce identities as stories. Identities have greater staying power than one would expect them to have if they were purely and simply narrative constructions, she argues, because people institutionalize identity-stories, building them into laws, rules, and other institutions that give social actors incentives to perform their identities well, and because they objectify identity-stories, building them into material forms that actors experience with their bodies. Drawing on in-depth historical analyses of the development of racialized identities and spaces in the twentieth-century United States, and also on life-narratives collected from people who live in racialized urban and suburban spaces, Hayward shows how the institutionalization and objectification of racial identity-stories enables their practical reproduction, lending them resilience in the face of challenge and critique.

### **GOD'S AMAZING GRACE: RECONCILING FOUR CENTURIES OF AFRICAN AMERICAN MARRIAGES AND FAMILIES**

---

WestBow Press "God's Amazing Grace: Reconciling Four Centuries of African American Marriages and Families is an insightful study that will be welcomed by thoughtful practitioners and all who ponder the African American family's complexity. Readers familiar with the deep, rich reservoir of African American family literature will recognize many of the black scholars referenced in this work. Readers unfamiliar with these sources will be grateful to discover them and the effective use of disparate literature. "This work will become a different kind of guide for studying American history through the lens of the African American family. Underneath all the research is the search for answers to the compelling questions: Is there a correlation between slave owners' denial to slaves, God's design for the family, and the familial chaos that has plagued African American families for more than a hundred fifty years? And if there is connection, what is it? "The author has brought something new to a familiar topic of discussion—the Bible. The unique moral compass that steered this study is solidly anchored in the bedrock of holy scripture. In this work, the history and sociology of African American marriages are examined in light of the questions asked by Holy Scripture. In so doing, Dr. Turner skillfully attempts to help readers make sense of the story of black families in America. May this book mark the beginning to a new reality for African American families" (Dr. Willie Peterson, senior executive advisor, adjunct professor of Pastoral Ministries, Dallas Theological Seminary).

## **RELIGIOUS INTOLERANCE IN AMERICA**

---

### **A DOCUMENTARY HISTORY**

Univ of North Carolina Press American narratives often celebrate the nation's rich heritage of religious freedom. There is, however, a less told and often ignored part of the story: the ways that intolerance and cultures of hate have manifested themselves within American religious history and culture. In the first ever documentary survey of religious intolerance from the colonial era to the present, volume editors John Corrigan and Lynn S. Neal define religious intolerance and explore its history and manifestations, including hate speech, discrimination, incarceration, expulsion, and violence. Organized thematically, the volume combines the editors' discussion with more than 150 striking primary texts and pictures that document intolerance toward a variety of religious traditions. Moving from anti-Catholic Ku Klux Klan propaganda to mob attacks on Mormons, the lynching of Leo Frank, the kidnapping of "cult" members, and many other episodes, the volume concludes with a chapter addressing the changing face of religious intolerance in the twenty-first century, with examples of how the problem continues to this day.

Routledge Originally published in 1974, this study offers valuable perspectives on the status and roles of women in Stuart England and in the newly settled colonies of North America, particularly Massachusetts and Virginia. Incorporating both new research on the subject, and the findings of other scholars on demographic and social history, the author examines the effects of sex ratios, economic opportunities, Puritanism and frontier conditions on the emancipation of American women in comparison with their English counterparts. He discusses the effects of these major differences on women's roles in courtship, marriage and the family, educational, legal and civic opportunities. In the final chapter, he compares the moral climate of the two cultures in the latter part of the seventeenth century.
