These stories introduce us to a Lakota Indian tribe, happy, healthy and prosperous. The star of these stories is Thunder Rider, a five-year-old boy, who was nicknamed Tuffy by his grandfather. In these stories, I wanted to show Tuffy as a typical little boy who liked to learn and explore everything. From the moment I conceived the idea of writing these stories, I wanted the main character to learn many lessons resulting from the choices he makes and the actions he takes. These tales reflect fictitious adventures that a Native American child may have experienced a very long time ago. The lessons learned still ring true today within all ethnic groups, and perhaps for all times. The first story, 'How Tuffy Got his Name and Pet,' describes Tuffy's recounting to his best friend of how he was given his name at birth. Since Indian storytelling is the way by which generations kept their history, Tuffy has inherited the formal voice of the storytellers he has heard since birth. His mother, pregnant with the boy, was gathering berries and wandered too far away from the village to return before a great storm hit. She sheltered under a ledge and gave birth to him. His father named him Thunder Rider for being so brave and strong during the thunderstorm. The story also describes how Tuffy got his pet wolf. He journeys alone to the woods and the great mountain where he was born and encounters a bear. A wolf saves him from the bear and he then keeps the wolf for a pet. The second story, 'Tuffy and the Eagle,' describes how Tuffy accidentally frees an eagle that was brought to the village by his best friend and his best friend's father. They found the injured eagle on their way back to the village after going hunting. They wanted to mend the eagle's wing in hopes that it would be able to fly again. Tuffy goes to the eagle's cage and opens it in an effort to comfort the eagle. The eagle flaps its wings at Tuffy very hard and flies out of the cage. Tuffy decides not to admit to anyone about the eagle's disappearance. He suffers from worryment and guilt for many hours before finally admitting the truth to his friend. He learns a very important lesson from his mistake. A lesson he will never forget. The third story, 'Tuffy and the Bow and Arrow,' describes a very special place where Tuffy and his father travel to, in order to experience their very first overnight hunting trip together. He learns many things on this trip and is thrilled to learn that one day soon, he will receive his own bow and arrows. It also describes the events that lead him into removing his father's bow and arrow from the tepee without permission, and how the bow ends up broken. Tuffy shows his wisdom in choosing to confess to his father before too long about the broken bow. The fourth story, 'Tuffy and the Buffalo Hunt,' describes how Tuffy and his cousin sneak away from their grandparent's tepee to travel to the traditional semi-annual event, the Buffalo Hunt. Without permission, they ride their ponies to the Hunt and witness first hand how a Hunt is truly carried out. The story also describes how Tuffy's arm ends up broken and the many lessons he learns from his actions. The fifth story, 'Tuffy Turns Six,' describes how and why Tuffy gets into a fight with an older brave protecting his best friend's sister on his birthday. The story also describes this important experience as a defining moment in his young life, as it pertains to his friend's sister. In spite of the fact that Tuffy gets into a fight on his birthday, his spirit and heart are ultimately consoled by the many touching birthday gifts he receives later that evening. He is left feeling very grateful for the many blessings he knows he has within his life circle. **Cat City Tuffy's Story** *AuthorHouse* Based off the role-playing game from T. G. K. 110s childhood comes the dark, yet comedic story of anthropomorphic beings known as chimerians; trying to survive in a post-apocalyptic world alongside the human race. Many years ago a colossal alien vessel entered Earths atmosphere, carrying millions of chimerian refugees. Once the humans make contact with the vessels inhabitants, tensions quickly rise when the new arrivals are detained by man and sent to internment camps. The chimerians rebel, sparking a civil war that erupts into thermal nuclear war. The devastation forces a treaty, as both chimerians and humans struggle to rebuild. With the first of the new settlements coming to fruition, gangs rise up to take advantage, sparking gang wars that threaten to consume all that has been accomplished. Originally called Cat City because the game starred the authors two pet cats; this first tale follows Tuffy Baxton as he struggles to survive on the grungy streets of the Slums. He is bullied by his teacher, the notorious Stuffeddy Gang, and Ducklinga Stuffeddy with his own crew of wannabe gangsters. Upon meeting Pounce Jigga Bounce and his band of misfits, Tuffy is taught to face his demons head-on. But is the price for standing up for yourself really worth it if you have to become the very thing youre trying to destroy? **Beneath Archers Tree** *Author House* This book takes an unusual slant on life, both from a socioeconomic and cultural standpoint. The underlying sense of humor leans towards Native American and the working class, you know the people that really built America and every other country on this planet. This being said, the reader will find a connection to the author and this book. The book takes the reader

on a journey of discovery that opens that primal dormant eye of the hunter in all of us. The author was raised in a culture that is rich in oral history. Stories told around tables and campfires a culture that believes in signs and visions both are depicted in this offering. The author said that the family stories were written just like they happen only some of the names were changed. There are strong intelligent female characters throughout this book. The only character created was one to help explain a dream or vision depending on one's belief system. A vision that the author had while in the mountains. This book asks the reader to question everything around us, some questions are even quantum based. There is a freckle here and a wart there but overall this book is well worth the read. You will laugh and cry and your spirit will fly. Beneath Archers Tree has been read by some of the smartest people in this country, some worked for NASA, some were professors, one is one of the author's heroes. This hero is Russell Means the Indian activist and actor and author of, "Where White Men Fear To Tread." A book every American should take a moment and read. Mr. Means read a chapter from Beneath Archers Tree, the chapter was Stain Glass Sky, he sent a note saying how much he liked it. **A Journey Back** *iUniverse* A Journey Back is the story of an ordinary man who has struggled to make his way in one world, and failed, only to discover clarity and strength in the world he had left behind so many years before. Ray Black finds himself, almost against his will, returning to the Indian Reservation where he'd spent his childhood. What he finds there, instead of emptiness, is lost family, old friends and a cultural identity that will change his understanding of himself and the world around him. His Native American heritage provides the foundation for a new life but leads him to the discovery of a crime against Mother Earth that violates the laws of man and the spirituality of his people. Now he must find a way to stop it before the earth suffers and other people die. **Ebony** EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine. **Menopausal Musings & Other Stories** *Lulu Press, Inc* Menopausal Musings is a collection of small novellas. Each novella follows the inner world of one character's contorted thoughts as they cope with the crisis of middle age. We observe these afflicted people as they exist at different times of day. All are urban characters who live alone in New York City. All are trapped within the walls of their apartments and trapped in their minds and unable to escape. We listen and observe as their minds swirl with hopes, dreams, bitterness, and anger. We cringe as we watch their souls cringe because of isolation from family, friends, and the rest of humanity. They're humans set adrift in a unforgiving world with its billions of unmarked faces. Yet, their pain is our pain; their longing is our longing. And, that is the whole point. **How Tuffy Got His Bark** *Rocking Horse Publishing* Poor little Tuffy. He can't make a sound, and all the other dogs laugh at him. One day, he finds a new friend, Max, and they run and play--until Max has an accident! Tuffy must help his friend--but how? **Caledonia Along the Grand River** *Dundurn* Caledonia, just south of Hamilton, has a history closely tied to the heritage of the Grand River. From the Grand River Navigation Company of the 1830s to the current nine-span bridge in the centre of town, the river and the community have shared a special relationship. Intriguing entrepreneurs, town characters and prominent citizens have touched the life of Caledonia, leaving a legacy that is fascinating, sometimes amusing and richly anecdotal.
