DEMOCRACY INCORPORATED

MANAGED DEMOCRACY AND THE SPECTER OF INVERTED TOTALITARIANISM - NEW EDITION

Princeton University Press Democracy is struggling in America--by now this statement is almost cliché. But what if the country is no longer a democracy at all? In *Democracy Incorporated*, Sheldon Wolin considers the unthinkable: has America unwittingly morphed into a new and strange kind of political hybrid, one where economic and state powers are conjoined and virtually unbridled? Can the nation check its descent into what the author terms "inverted totalitarianism"? Wolin portrays a country where citizens are politically uninterested and submissive--and where elites are eager to keep them that way. At best the nation has become a "managed democracy" where the public is shepherded, not sovereign. At worst it is a place where corporate power no longer answers to state controls. Wolin makes clear that today's America is in no way morally or politically comparable to totalitarian states like Nazi Germany, yet he warns that unchecked economic power risks verging on total power and has its own unnerving pathologies. Wolin examines the myths and mythmaking that justify today's politics, the quest for an ever-expanding economy, and the perverse attractions of an endless war on terror. He argues passionately that democracy's best hope lies in citizens themselves learning anew to exercise power at the local level. *Democracy Incorporated* is one of the most worrying diagnoses of America's political ills to

emerge in decades. It is sure to be a lightning rod for political debate for years to come. Now with a new introduction by Pulitzer Prize-winning journalist Chris Hedges, *Democracy Incorporated* remains an essential work for understanding the state of democracy in America.

THE HACKER CRACKDOWN, LAW AND DISORDER ON THE ELECTRONIC FRONTIER

Tredition Classics This book is part of the TREDITION CLASSICS. It contains classical literature works from over two thousand years. Most of these titles have been out of print and off the bookstore shelves for decades. The book series is intended to preserve the cultural legacy and to promote the timeless works of classical literature. Readers of a TREDITION CLASSICS book support the mission to save many of the amazing works of world literature from oblivion. With this series, tredition intends to make thousands of international literature classics available in printed format again - worldwide.

ARTISTIC RESEARCH

Rodopi Advanced art education is in the process of developing research programs throughout Europe. What does the term research actually mean in the practice of art? What is the relation to the scientific methods of alpha, beta or gamma sciences, directed toward knowledge production and the development of a certain scientific domaine? What will be the influence of scientific research on the art forms?

THE MEDIA BOOK

Hodder Education The Media Book provides today's students with a comprehensive foundation for the study of the modern media. It has been systematically compiled to map the field in a way which corresponds to the curricular organization of the field around the globe, providing a complete resource for students in their third year to graduate level courses in the U.S.

CICERO, PHILIPPIC 2, 44-50, 78-92, 100-119

LATIN TEXT, STUDY AIDS WITH VOCABULARY, AND COMMENTARY

Open Book Publishers Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response

to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

THE HIDDEN CURRICULUM IN HIGHER EDUCATION

Psychology Press This text includes original essays focusing on every aspect of the hidden curriculum, from sexism in science departments to the politics of the dissertation committee to the training of capitalism's foot soldiers by business schools.

THE CAMBRIDGE COMPANION TO VIRGIL

Cambridge University Press Virgil became a school author in his own lifetime and the centre of the Western canon for the next 1800 years, exerting a major influence on European literature, art, and politics. This Companion is designed as an indispensable guide for anyone seeking a fuller understanding of an author critical to so many disciplines. It consists of essays by seventeen scholars from Britain, the USA, Ireland and Italy which offer a range of different perspectives both traditional and innovative on Virgil's works, and a renewed sense of why Virgil matters today. The Companion is divided into four main sections, focussing on reception, genre, context, and form. This ground-breaking book not only provides a wealth of material for an informed reading but also offers fresh and sophisticated insights which point to the shape of Virgilian scholarship and criticism to come.

IMPROVISING RECONCILIATION

CONFESSION AFTER THE TRUTH COMMISSION

Liverpool University Press An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library. Improvising Reconciliation is prompted by South Africa's enduring state of injustice. It is both a lament for the promise, since lost, with which non-racial democracy was inaugurated and, more substantially, a space within which to consider its possible

renewal. As such, this study lobbies for an expanded approach to the country's formal transition from apartheid in order to grapple with reconciliation's ongoing potential within the contemporary imaginary. It does not, however, presume to correct the contradictions that have done so much to corrupt the concept in recent decades. Instead, it upholds the language of reconciliation for strategic, rather than essential, reasons. And while this study surveys some of the many serious critiques levelled at the country's Truth and Reconciliation Commission (1996-2001), these misgivings help situate the plural, improvised approach to reconciliation that has arguably emerged from the margins of the cultural sphere in the years since. Improvisation serves here as a separate way of both thinking and doing reconciliation. It recalibrates the concept according to a series of deliberative, agonistic and iterative, rather than monumental, interventions, rendering reconciliation in terms that make failure a necessary condition for its future realisation.

THE UNDERSEA NETWORK

Duke University Press In our "wireless" world it is easy to take the importance of the undersea cable systems for granted, but the stakes of their successful operation are huge, as they are responsible for carrying almost all transoceanic Internet traffic. In *The Undersea Network* Nicole Starosielski follows these cables from the ocean depths to their landing zones on the sandy beaches of the South Pacific, bringing them to the surface of media scholarship and making visible the materiality of the wired network. In doing so, she charts the cable network's cultural, historical, geographic and environmental dimensions. Starosielski argues that the environments the cables occupy are historical and political realms, where the network and the connections it enables are made possible by the deliberate negotiation and manipulation of technology, culture, politics and geography. Accompanying the book is an interactive digital mapping project, where readers can trace cable routes, view photographs and archival materials, and read stories about the island cable hubs.

THE JOHNS HOPKINS GUIDE TO DIGITAL MEDIA

JHU Press The study of what is collectively labeled "New Media"—the cultural and artistic practices made possible by digital technology—has become one of the most vibrant areas of scholarly activity and is rapidly turning into an established academic field, with many universities now offering it as a major. The *Johns Hopkins Guide to Digital Media* is the first comprehensive reference work to which teachers, students, and the curious can quickly turn for reliable information on the key terms and concepts of the field. The contributors present entries on nearly 150 ideas, genres, and theoretical concepts that have allowed digital media to produce some of the most innovative intellectual, artistic, and social practices of our time. The result is an easy-to-consult reference for digital media scholars or anyone wishing to become familiar with this fast-developing field.

ON THE WAY TO THE WEB

THE SECRET HISTORY OF THE INTERNET AND ITS FOUNDERS

Apress *On the Way to the Web: The Secret History of the Internet and Its Founders* is an absorbing chronicle of the inventive, individualistic, and often cantankerous individuals who set the Internet free. Michael A. Banks describes how the online population created a new culture and turned a new frontier into their vision of the future. This book will introduce you to the innovators who laid the foundation for the Internet and the World Wide Web, the man who invented online chat, and the people who invented the products all of us use online every day. Learn where, when, how and why the Internet came into being, and exactly what hundreds of thousands of people were doing online before the Web. See who was behind it all, and what inspired them.

SATIRIC ADVICE ON WOMEN AND MARRIAGE

FROM PLAUTUS TO CHAUCER

University of Michigan Press *Advice on sex and marriage in the literature of antiquity and the middle ages* typically stressed the negative: from stereotypes of nagging wives and cheating husbands to nightmarish visions of women empowered through marriage. *Satiric Advice on Women and Marriage* brings together the leading scholars of this fascinating body of literature. Their essays examine a variety of ancient and early medieval writers' cautionary and often eccentric marital satire beginning with Plautus in the third century B.C.E. through Chaucer (the only non-Latin author studied). The volume demonstrates the continuity in the Latin tradition which taps into the fear of marriage and intimacy shared by ancient ascetics (Lucretius), satirists (Juvenal), comic novelists (Apuleius), and by subsequent Christian writers starting with Tertullian and Jerome, who freely used these ancient sources for their own purposes, including propaganda for recruiting a celibate clergy and the promotion of detachment and asceticism as Christian ideals. Warren S. Smith is Professor of Classical Languages at the University of New Mexico.

BOTNETS

THE KILLER WEB APPLICATIONS

Elsevier *The book begins with real world cases of botnet attacks to underscore the need for action. Next the book will explain botnet fundamentals using real world examples. These chapters will cover what they are, how they operate, and the environment and*

technology that makes them possible. The following chapters will analyze botnets for opportunities to detect, track, and remove them. Then the book will describe intelligence gathering efforts and results obtained to date. Public domain tools like OurMon, developed by Jim Binkley of Portland State University, will be described in detail along with discussions of other tools and resources that are useful in the fight against Botnets. This is the first book to explain the newest internet threat - Botnets, zombie armies, bot herders, what is being done, and what you can do to protect your enterprise Botnets are the most complicated and difficult threat the hacker world has unleashed - read how to protect yourself

HOW TO STUDY ART WORLDS

ON THE SOCIETAL FUNCTIONING OF AESTHETIC VALUES

Amsterdam University Press Hans van Maanen is professor of art and society at the Department of Arts, Culture & Media Studies of the University of Groningen, the Netherlands.

PLATO AND THE HERO

COURAGE, MANLINESS AND THE IMPERSONAL GOOD

Cambridge University Press Examines Plato's critique of the notions and embodiments of manliness prevalent in his culture.

INTRODUCTION TO INFORMATION SYSTEMS

SUPPORTING AND TRANSFORMING BUSINESS

John Wiley & Sons WHATS IN IT FOR ME? Information technology lives all around us-in how we communicate, how we do business, how we shop, and how we learn. Smart phones, iPods, PDAs, and wireless devices dominate our lives, and yet it's all too easy for students to take information technology for granted. Rainer and Turban's Introduction to Information Systems, 2nd edition helps make Information Technology come alive in the classroom. This text takes students where IT lives-in today's businesses and in our daily lives while helping students understand how valuable information technology is to their future careers. The new edition provides concise and accessible coverage of core IT topics while connecting these topics to Accounting, Finance, Marketing, Management, Human resources, and Operations, so students can discover how critical IT is to each functional area and every business. Also available with this edition is WileyPLUS - a powerful online tool that provides instructors and students with an integrated suite of

teaching and learning resources in one easy-to-use website. The WileyPLUS course for Introduction to Information Systems, 2nd edition includes animated tutorials in Microsoft Office 2007, with iPod content and podcasts of chapter summaries provided by author Kelly Rainer.

GLOBAL CROSSROADS: RETHINKING DOMINANT ORDERS IN OUR CONTESTED WORLD

IJOPEC PUBLICATION Global Crossroads: Rethinking Dominant Orders in Our Contested World is an edited collection of papers mostly presented at the 2019 DEN International Student Conference. This publication is one of the many annual projects conducted under the umbrella of the Democratic Education Network (DEN) which came to existence in 2016 at the then Department of Politics and International Relations at the University of Westminster. Today DEN has expanded across multiple departments within the University's School of Social Sciences, aiming to inspire engagement with communities and involvement in student-led projects. DEN aspires to be a platform for empowering students, offering them opportunities for personal, intellectual and professional development, and enhancing students' engagement and experience. This book is an articulation of the students' research and analytical work on some of the most pressing global issues of our times. It is, further, a product of their hard work and skills, developed through DEN, in editing and compiling academic publications — a testimony to DEN's ability to encourage and empower students to work together and achieve remarkable results.

FIELD OPERATIONS GUIDE FOR DISASTER ASSESSMENT AND RESPONSE

Skyhorse Publishing Inc. Geared towards those deployed to disaster sites as part of the response, this guide offers extensive information on how to make assessments and reports, coordinate with military in the field and participate as a member of a Disaster Assistance Response Team. Original.

VIRGIL, AENEID, 4.1-299

LATIN TEXT, STUDY QUESTIONS, COMMENTARY AND INTERPRETATIVE ESSAYS

Open Book Publishers Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the

larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

PRIVATE GOVERNANCE

CREATING ORDER IN ECONOMIC AND SOCIAL LIFE

Oxford University Press, USA From the world's first stock markets in the seventeenth century, to private policing in the early days of San Francisco, to the millions of credit card transactions and the complex financial markets governed by private rules today, 'Private Governance' makes the case that private rules and regulations are more common, effective, and promising than most of us believe. Analytical narratives weave together history and economics to show readers how private governance works.

THEATRE AND METATHEATRE

DEFINITIONS, PROBLEMS, LIMITS

Walter de Gruyter GmbH & Co KG The aim of this book is to explore the definition(s) of 'theatre' and 'metatheatre' that scholars use when studying the ancient Greek world. Although in modern languages their meaning is mostly straightforward, both concepts become problematical when applied to ancient reality. In fact, 'theatre' as well as 'metatheatre' are used in many different, sometimes even contradictory, ways by modern scholars. Through a series of papers examining questions related to ancient Greek theatre and dramatic performances of various genres the use of those two terms is problematized and put into question. Must ancient Greek theatre be reduced to what was performed in proper theatre-buildings? And is everything was performed within such buildings to be considered as 'theatre'? How does the definition of what is considered as theatre evolve from one period to the other? As for 'metatheatre', the discussion revolves around the interaction between reality and fiction in dramatic pieces of all genres. The various definitions of 'metatheatre' are also explored and explicated by the papers gathered in this volume, as well as the question of the distinction between paratheatre (understood as paratragedy/comedy) and metatheatre. Readers will be encouraged by the diversity of approaches presented in this book to re-think their own understanding and use of 'theatre' and 'metatheatre' when examining

ancient Greek reality.

TELEMATIC EMBRACE

VISIONARY THEORIES OF ART, TECHNOLOGY, AND CONSCIOUSNESS

Univ of California Press This is a compilation of more than three decades of the philosophies of pioneering British artist and theorist Roy Ascott, on aesthetics, interactivity and the sense of self and community in the telematic world of cyberspace.

ARCHAEOLOGY

THE DISCIPLINE OF THINGS

Univ of California Press “This book exhorts the reader to embrace the materiality of archaeology by recognizing how every step in the discipline’s scientific processes involves interaction with myriad physical artifacts, ranging from the camel-hair brush to profile drawings to virtual reality imaging. At the same time, the reader is taken on a phenomenological journey into various pasts, immersed in the lives of peoples from other times, compelled to engage their senses with the sights, smells, and noises of the publics and places whose remains they study. This is a refreshingly original and provocative look at the meaning of the material culture that lies at the foundation of the archaeological discipline.”—Michael Brian Schiffer, author of *The Material Life of Human Beings* “This volume is a radical call to fundamentally rethink the ontology, profession, and practice of archaeology. The authors present a closely reasoned, epistemologically sound argument for why archaeology should be considered the discipline of things, rather than its more commonplace definition as the study of the human past through material traces. All scholars and students of archaeology will need to read and contemplate this thought-provoking book.”—Wendy Ashmore, Professor of Anthropology, UC Riverside “A broad, illuminating, and well-researched overview of theoretical problems pertaining to archaeology. The authors make a calm defense of the role of objects against tedious claims of ‘fetishism.’”—Graham Harman, author of *The Quadruple Object*

CYCLING AND CINEMA

MIT Press A unique exploration of the history of the bicycle in cinema, from Hollywood blockbusters and slapstick comedies to documentaries, realist dramas, and experimental films. *Cycling and Cinema* explores the history of the bicycle in cinema from the late nineteenth century through to the present day. In this new book from Goldsmiths Press, Bruce Bennett examines a wide variety of films from around the world, ranging from Hollywood blockbusters and slapstick comedies to documentaries, realist dramas, and

experimental films, to consider the complex, shifting cultural significance of the bicycle. The bicycle is an everyday technology, but in examining the ways in which bicycles are used in films, Bennett reveals the rich social and cultural importance of this apparently unremarkable machine. The cinematic bicycles discussed in this book have various functions. They are the source of absurd comedy in silent films, and the vehicles that allow their owners to work in sports films and social realist cinema. They are a means of independence and escape for children in melodramas and kids' films, and the tools that offer political agency and freedom to women, as depicted in films from around the world. In recounting the cinematic history of the bicycle, Bennett reminds us that this machine is not just a practical means of transport or a child's toy, but the vehicle for a wide range of meanings concerning individual identity, social class, nationhood and belonging, family, gender, and sexuality and pleasure. As this book shows, two hundred years on from its invention, the bicycle is a revolutionary technology that retains the power to transform the world.

STANDARD FOR TELEPHONE EQUIPMENT

UL 1459

TABER'S CYCLOPEDIA MEDICAL DICTIONARY

F A Davis Company Contains 55,000 alphabetically arranged entries that provide definitions of terms and phrases related to health science.

ENCYCLOPEDIA OF EARLY CHILDHOOD EDUCATION

Routledge This Encyclopedia is a reference work about young children in the USA, designed for use by policy makers, community planners, parents of young children, teacher and early childhood educators, programme and school administrators, among others. The field of early childhood education has been affected by changes taking place in the nation's economy, demographics, schools, communities and families that influence political and professional decisions. These diverse historical, political economic, socio-cultural, intellectual and educational influences on early childhood education have hindered the development of a clear definition of the field. The Encyclopedia provides an opportunity to define the field against the background of these influences and relates the field of early childhood education to its diverse contexts and to the cultural and technological resources currently affecting it.

POETICS AND POLITICS

NET STRUCTURES AND AGENCIES IN EARLY MODERN DRAMA

Walter de Gruyter GmbH & Co KG Far from teleological historiography, the pan-European perspective on Early Modern drama offered in this volume provides answers to why, how, where and when the given phenomena of theatre appear in history. Using theories of circulation and other concepts of exchange, transfer and movement, the authors analyze the development and differentiation of European secular and religious drama, within the disciplinary framework of comparative literature and the history of literature and concepts. Within this frame, aspects of major interest are the relationship between tradition and innovation, the status of genre, the proportion of autonomous and heteronomous creational dispositions within the artefacts or genres they belong to, as well as strategies of functionalization in the context of a given part of the cultural net. Contributions cover a broad range of topics, including poetics of Early Modern Drama; political, institutional and social practices; history of themes and motifs (Stoffgeschichte); history of genres/cross-fertilization between genres; textual traditions and distribution of texts; questions of originality and authorship; theories of circulation and net structures in Drama Studies.

OATHS AND SWEARING IN ANCIENT GREECE

Walter de Gruyter GmbH & Co KG The oath was an institution of fundamental importance across a wide range of social interactions throughout the ancient Greek world, making a crucial contribution to social stability and harmony; yet there has been no comprehensive, dedicated scholarly study of the subject for over a century. This volume of a two-volume study explores the nature of oaths as Greeks perceived it, the ways in which they were used (and sometimes abused) in Greek life and literature, and their inherent binding power.

ROSS-ADE

THEIR PURDUE STORIES, STADIUM, AND LEGACIES

Purdue University Press Dave Ross (1871-1943) and George Ade (1866-1944) were trustees, distinguished alumni and benefactors of Purdue University. Their friendship began in 1922 and led to their giving land and money for the 1924 construction of Ross-Ade Stadium, now a 70,000 seat athletic landmark on the West Lafayette campus. Their life stories date to 1883 Purdue and involve their separate student experiences and eventual fame. Their lives crossed paths with U.S. First Lady Eleanor Roosevelt, Henry Ford, Amelia Earhart, and Will Rogers among others. Gifts or ideas from Ross or Ade led to creation of the Purdue Research Foundation, Purdue Airport, Ross Hills Park, and Ross Engineering Camp. They helped Purdue Theater, the Harlequin Club and more. Ade, renowned

author and playwright, did butt heads with Purdue administrators at times long ago, but remains a revered figure. Ross's ingenious mechanical inventions of gears still steer millions of motorized vehicles, boats, tractors, even golf carts the world over.

THE RISE AND FALL OF COMSAT

TECHNOLOGY, BUSINESS, AND GOVERNMENT IN SATELLITE COMMUNICATIONS

Springer After pioneering this technology and growing the market, COMSAT fell prey to changes in government policy and to its own lack of entrepreneurial talent. The author explores the factors which contributed to this rise and fall of COMSAT.

ANGRY

Childs World Incorporated A child explains what angers him and how he sometimes angers other people.

THE RISE OF EUROCENTRISM

ANATOMY OF INTERPRETATION

Princeton University Press In the controversy over political correctness, the canon, and the curriculum, the role of Western tradition in a post-modern world is often debated. To clarify what is at stake, Vassilis Lambropoulos traces the ideology of European culture from the Reformation, focusing on a key element of Western tradition: the act of interpretation as a distinct practice of understanding and a civil right. Championed by Protestants insisting on independent interpretation of scripture, this ideal of autonomy ushered in the era of modernity with its essentialist philosophy of universal man and his aesthetic understanding of the world. After explaining the dominance of European culture through the combined archetypes of Hebraism (reason and morality) and Hellenism (spirit and art), Lambropoulos shows how the rule of autonomy has been transformed into the aesthetic, disinterested contemplation of things in themselves. Arguing that it is time to restore the socio-political dimension to the movement of autonomy, he proposes that a genealogy of the Hebraic-Hellenic archetypes can help us evaluate more recent models--like the Afrocentric one--and redefine the controversy surrounding education, Eurocentrism, and cultural politics.

FEMINIST THOUGHT

A MORE COMPREHENSIVE INTRODUCTION

Westview Press In this second edition of her 1989 survey on feminist theory, Rosemarie Tong provides a more comprehensive and substantially redrawn map of twentieth-century feminist thinking. Besides providing up-to-date coverage of liberal, radical (libertarian and cultural), and Marxist-socialist schools of feminism, she covers psychoanalytic, existentialist, and postmodern feminism. All the chapters have been rethought and new chapters on ecofeminism and multicultural and global feminism have been added. In the clear-sighted and accessible style for which she has become known, Tong guides the reader through the complexities of even the most notoriously difficult thinkers. Students will become familiar with many of the essential figures in the feminist tradition as well as some of the issues that have been of special concern to women (e.g., pornography, reproductive technology, housework, the environment, and militarism). Moreover, students are repeatedly urged to consider the many differences that separate women (class, race, ethnicity, age, nationality, religion) as well as the sameness that continues to unite women. Tong treats all views with respect and encourages the reader to think both sympathetically and critically about what feminism is and what relevance it has to their own lives. As valuable as the first edition of *Feminist Thought*, this second edition surpasses its predecessor in depth and breadth. Clearly, Tong believes that feminist thought is still developing even as it approaches the millennium.

HANDBOOK OF FIBER OPTIC DATA COMMUNICATION

Academic Press The Handbook includes chapters on all the major industry standards, quick reference tables, helpful appendices, plus a new glossary and list of acronyms. This practical handbook can stand alone or as a companion volume to *DeCusatis: Fiber Optic Data Communication: Technological Advances and Trends* (February 2002, ISBN: 0-12-207892-6), which was developed in tandem with this book. * Includes emerging technologies such as Infiniband, 10 Gigabit Ethernet, and MPLS Optical Switching * Describes leading edge commercial products, including LEAF and MetroCore fibers, dense wavelength multiplexing, and Small Form Factor transceiver packages * Covers all major industry standards, often written by the same people who designed the standards themselves * Includes an expanded listing of references on the World Wide Web, plus hard-to-find references for international, homologation, and type approval requirements * Convenient tables of key optical datacom parameters and glossary with hundreds of definitions and acronyms * Industry buzzwords explained, including SAN, NAS, and MAN networking * Datacom market analysis and future projections from industry leading forecasters

GUIDE TO RELIABLE DISTRIBUTED SYSTEMS

BUILDING HIGH-ASSURANCE APPLICATIONS AND CLOUD-HOSTED SERVICES

Springer Science & Business Media This book describes the key concepts, principles and implementation options for creating high-assurance cloud computing solutions. The guide starts with a broad technical overview and basic introduction to cloud computing, looking at the overall architecture of the cloud, client systems, the modern Internet and cloud computing data centers. It then delves into the core challenges of showing how reliability and fault-tolerance can be abstracted, how the resulting questions can be solved, and how the solutions can be leveraged to create a wide range of practical cloud applications. The author's style is practical, and the guide should be readily understandable without any special background. Concrete examples are often drawn from real-world settings to illustrate key insights. Appendices show how the most important reliability models can be formalized, describe the API of the Isis2 platform, and offer more than 80 problems at varying levels of difficulty.

THE ARCHITECTURE OF SIR ERNEST GEORGE

Includes projects with his 3 successive partners: Thomas Vaughan (1836-1875), Harold Peto (1854-1933) and Alfred Yeates (1867-1944).

FORTHCOMING BOOKS

THE SAGE HANDBOOK OF FEMINIST THEORY

SAGE At no point in recorded history has there been an absence of intense, and heated, discussion about the subject of how to conduct relations between women and men. This Handbook provides a comprehensive guide to these omnipresent issues and debates, mapping the present and future of thinking about feminist theory. The chapters gathered here present the state of the art in scholarship in the field, covering: Epistemology and marginality Literary, visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace. The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been (and are) organized. The authors bring a shared commitment to the critical appraisal of gender relations, as well as a recognition that to think 'theoretically' is not to detach concerns from lived experience but to extend the possibilities of understanding. With this focus on theory and theorizing about the world in which we live, this Handbook asks us, across all disciplines and situations, to abandon our taken-for-granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism. It is an essential reference work for advanced students and academics not only of feminist theory, but of

gender and sexuality across the humanities and social sciences.

AMERICAN CINEMATOGRAPHER MANUAL

American Cinematographer Volume One is the reference guide containing in-depth chapters by noted professionals such as “Framing for Television” by Dave Kenig; “Comparisons of 1.85, Anamorphic and Super 35 Film Formats” by Rob Hummel; “Anamorphic Cinematography” by John Hora, ASC; “Lenses by Iain Neil; “Motion-Control Cinematography” by Richard Edlund, ASC; “Aerial Cinematography” by Jon Kranhouse; “Underwater Cinematography” by Pete Romano, ASC; “Digital Postproduction for Film” by Bill Feightner and Robert L. Eicholz; “Shooting 16mm Color Negative for Blowup to 35mm” by Irwin Young, etc. Volume Two is the field guide starts with camera section assembled by Jon Fauer, ASC and continues with all of the tables and charts for quick reference while working on the set. Each book is 6”x9” with over 400 pages. Each volume also contains the complete table of contents and index for both books for ease of use.
