The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam. *Reflections on the Nude Routledge Tavistock Press* was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. An Introduction to Zoo Biology and Management *John Wiley & Sons* This book is intended as an introductory text for students studying a wide range of courses concerned with animal management, zoo biology and wildlife conservation, and should also be useful to zookeepers and other zoo professionals. It is divided into three parts. Part 1 considers the function of zoos, their history, how zoos are managed, ethics, zoo legislation and wildlife conservation law. Part 2 discusses the design of zoos and zoo exhibits, animal nutrition, reproduction, animal behaviour (including enrichment and training), animal welfare, veterinary care, animal handling and transportation. Finally, Part 3 discusses captive breeding programmes, genetics, population biology, record keeping, and the educational role of zoos, including a consideration of visitor behaviour. It concludes with a discussion of the role of zoos in the conservation of species in the wild and in species reintroductions. This book takes an international perspective and includes a wide range of examples of the operation of zoos and breeding programmes particularly in the UK, Europe, North America and Australasia. Rethinking Civilizational Analysis *SAGE* Although the concept of 'civilization' has deep roots in the social sciences, there is an urgent need to re-think it for contemporary times. Rethinking Civilizational Analysis points to an exhaustion in using 'the nation state' and 'world system' as the basic macro-units of social analysis because they do not get to grips with the 'soft power' variable of cultural factors involved in global aspects of development. American Pickers Guide to Picking *Hachette UK* A true adventure story and the go-to guide for "picking" American treasures from anyone's backyard, straight from the stars of History's American Pickers In these pages, professional treasure hunters Mike Wolfe and Frank Fritz chronicle their road trips across the American countryside in search of "rusty gold" to buy and sell among the picking world's one-of-a-kind characters. Whether you are a fan of the show or just like finding hidden riches, you will love seeing what Wolfe and Fritz dig up and enjoy meeting the devoted collectors, extreme stockpilers, and elite dealers who they encounter along the way. Wolfe and Fritz do not deal in fine antiques. Their secondhand treasures are of the down-and-dirty and sometimes even bizarre variety, from old bicycles and vintage tools, to sun-bleached cars and handmade furniture, retired carnival games and unusual taxidermy. Assisted by Danielle Colby, who helps out at Antique Archaeology, Wolfe and Fritz buy on the cheap and then sell to dealers, art directors, interior designers, or anyone looking for a little bit of authentic Americana. The three now share their secrets to finding hidden gems, offering helpful hints that will show what average Americans can do to find the treasures that await them.

From American Pickers Guide to Picking: Junk is Beautiful When we knock on a door, 90 percent of the time the things we find are junk. But we don't care about the odds; a picker never turns down an opportunity, no matter where it is. We've picked pickup trucks. We've picked flat beds. We've picked dumpsters. We even picked a Mercury Sable. We're looking for the unusual, the impossible, the funky, the different, the bizarre-things we have never seen before. And we'll go anywhere we have to go to find it. No location is off-limits to a hard-core picker. And there's plenty of things to be found at antique stores, thrift and consignment shops, flea markets, estate sales, and swap meets, and a lot of the tips in this book apply to finding treasures at these joints. But that's not really the kind of picking we do anymore. We look outside the

box to find our junk-a word we use almost like a term of endearment: to us: junk is beautiful.
