By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got **The Yugo: The Rise and Fall of the Worst Car in History**. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom. **Air Conditioning Service Manual** [Primedia Business Directories & Books](#) **Making Sense in Religious Studies A Student's Guide to Research and Writing** [Oxford University Press](#) Specifically designed for students in religious studies, this book offers up-to-date, detailed information on writing essays and short assignments, doing comparative research, evaluating Internet sources, proper documentation, avoiding plagiarism, reading religious texts, learning foreign languages, and more. **MathLinks 7 Computerized Assessment Bank CD-ROM Gas Dynamics** [PHI Learning Pvt.
