FOUNDATIONS OF INFORMATION ETHICS

American Library Association *Foreword by Robert Hauptman As discussions about the roles played by information in economic, political, and social arenas continue to evolve, the need for an intellectual primer on information ethics that also functions as a solid working casebook for LIS students and professionals has never been more urgent. This text, written by a stellar group of ethics scholars and contributors from around the globe, expertly fills that need. Organized into twelve chapters, making it ideal for use by instructors, this volume from editors Burgess and Knox thoroughly covers principles and concepts in information ethics, as well as the history of ethics in the information professions; examines human rights, information access, privacy, discourse, intellectual property, censorship, data and cybersecurity ethics, intercultural information ethics, and global digital citizenship and responsibility; synthesizes the philosophical underpinnings of these key subjects with abundant primary source material to provide historical context along with timely and relevant case studies; features contributions from John M. Budd, Paul T. Jaeger, Rachel Fischer, Margaret Zimmerman, Kathrine A. Henderson, Peter Darch, Michael Zimmer, and Masooda Bashir, among others; and offers a special concluding chapter by Amelia Gibson that explores emerging issues in information ethics, including discussions ranging from the ethics of social media and social movements to AI decision making. This important survey will be a key text for LIS students and an essential reference work for practitioners.*

WAR, PEACE, AND RECONCILIATION

A THEOLOGICAL INQUIRY

Wipf and Stock Publishers *War, Peace, and Reconciliation invites Christians and the churches into a conversation over how to think about war from a standpoint in faith. It asks how reconciliation, which is central to Christian life and doctrine, can engage the realities of war without surrendering its fundamental affirmations. It defines these realities politically by discussing the meanings of power, peace as a particular organization of power, and the international system. The study of war and politics is unavoidable, as is the*

engagement with reconciliation, because all human existence and activity exist in the context of the gracious work of God to renew and reconcile the fallen creation. The inquiry is theocentric and christocentric. It culminates in a call to the churches to examine all their practices in the light of this perspective.

BEYOND CHRISTENDOM

GLOBALIZATION, AFRICAN MIGRATION, AND THE TRANSFORMATION OF THE WEST

Orbis Books Hanciles does yeoman work in part one synthesizing studies on the impact of globalization, revealing that its outcomes will likely not be determined by the Euro-American heartlands that sparked this movement. Instead, in parts two he shows that migration in general is having an enormous effect on shaping a new world order, and in part three, "Mobile Faith," he advances the case for the migration of Christians as carrying within it the seeds of renewal for the whole church and also the potential to reshape church-state and religion and culture relations globally.

POLITICAL SURVIVAL IN PAKISTAN

BEYOND IDEOLOGY

Routledge Presenting a framework that incorporates macro-level forces into micro-level strategic calculations, this book explains key political choices by leaders and challengers in Pakistan through the political survival mechanism. It offers an explanation for continuing polity weakness in the country, and describes how political survival shapes the choices made by the leaders and challengers. Using a unique analysis that synthesizes theories of weak states, quasi-states and political survival, the book extends beyond rationalist accounts and the application of choice-theoretical approaches to developing countries. It challenges the focus on ideology and suggests that diverse, religiously and ethnically-defined affinity groups have interests that are represented in particular ways in weak state circumstances. Extensive interviews with decision-makers and polity-participants, combined with narrative accounts, allow the author to examine decision-making by leaders in a state bureaucratic machinery context as well as the complex mechanisms by which dissident affinity groups may support 'quasi-state' options. This study can be used for comparisons in Islamic contexts, and presents an interesting contribution to studies on South Asia as well as Political Development.

ACCOUNTABILITY IN HIGHER EDUCATION

GLOBAL PERSPECTIVES ON TRUST AND POWER

Routledge The latest volume in the *Routledge International Studies in Higher Education* series, *Accountability in Higher Education* takes an in-depth look at accountability initiatives around the world. Various evaluations, reporting schemes, and indicator systems have been initiated both to inform the public about higher education performance and to help transform universities and colleges and improve their functioning. This edited collection provides a comparative analysis of the promises, perils and paradoxes of accountability, and the potential effect on power structures and higher education autonomy, trust and the legitimacy of the sector. Part I describes how accountability is perceived and understood in different regions of the world, identifies some of the most common elements in established accountability initiatives, especially related to quality assurance, and provides direction for possible future development. Part II focuses on responses to new demands for accountability at institutional, national and international levels, and provides practical guidance for handling accountability going forward, emphasizing the dynamic relationship between international development, government strategies and organizational change. WORLD HEALTH REPORT 2012

NO HEALTH WITHOUT RESEARCH

iMedPub The World Health Report 2012, the biannual flagship report of the World Health Organization, focuses for the first time in its history on the theme of research for better health. Decisions on healthcare are still made without a solid grounding in research evidence, and an impetus is required for this state of affairs to change. Aimed at ministers of health, the report provides new ideas,

innovative thinking, and pragmatic advice on how to strengthen health research systems. WHO and PLoS have launched an initiative to encourage researchers to complement and substantiate the key messages in World Health Report 2012 by creating a special WHO/PLoS Collection. PLoS invited the submission of papers, especially from low- and middle-income countries, on topics related to strengthening of key functions and components of national health research systems. The World Health Report 2012 focuses on eight specific areas, discussed in the editorial, within the theme of 'No Health Without Research.' We highlight below some examples of articles previously published in PLoS journals in these specific areas of interest. Now iMedPub brings this collection to you within a book.

CLIMATE CHANGE AND SUSTAINABLE DEVELOPMENT

ETHICAL PERSPECTIVES ON LAND USE AND FOOD PRODUCTION

Springer Science & Business Media Climate change is a major framing condition for sustainable development of agriculture and food. Global food production is a major contributor to global greenhouse gas emissions and at the same time it is among the sectors worst affected by climate change. This book brings together a multidisciplinary group of authors exploring the ethical dimensions of climate change and food. Conceptual clarifications provide a necessary basis for putting sustainable development into practice. Adaptation and mitigation demand altering both agricultural and consumption practices. Intensive vs. extensive production is reassessed with

regard to animal welfare, efficiency and environmental implications. Property rights pay an ever-increasing role, as do shifting land-use practices, agro-energy, biotechnology, food policy to green consumerism. And, last but not least, tools are suggested for teaching agricultural and food ethics. Notwithstanding the plurality of ethical analyses and their outcome, it becomes apparent that governance of agri-food is faced by new needs and new approaches of bringing in the value dimension much more explicitly. This book is intended to serve as a stimulating collection that will contribute to debate and reflection on the sustainable future of agriculture and food production in the face of global change.

RUMOR AND COMMUNICATION IN ASIA IN THE INTERNET AGE

Routledge *New communication technology has transformed the way in which news about key events is communicated. For example, in the immediate aftermath of catastrophic events such as the Mumbai attacks or the Japanese tsunami, partial accounts, accurate and inaccurate facts, rumour and speculation are now very rapidly disseminated across the globe, often ahead of official announcements and formal news reporting. Often in such situations rumours take hold, and continue to characterise events even after a more complete, more accurate picture eventually emerges. This book explores how such rumours are created, disseminated and absorbed in the age of the internet and mobile communications. It includes a wide range of examples and, besides considering the overall processes involved, engages with scholarly debates in the field of media and communication studies.*

PRESIDENTIAL POWER, RHETORIC, AND THE TERROR WARS

THE SOVEREIGN PRESIDENCY

Lexington Books *Presidential Power, Rhetoric, and the Terror Wars: The Sovereign Presidency argues that the War on Terror provided an opportunity to fundamentally change the presidency. Alexander Hiland analyzes the documents used to exercise presidential powers, including executive orders, signing statements, and presidential policy directives. Treating these documents as genres of speech-act that are ideologically motivated, Hiland provides a rhetorical criticism that illuminates the values and political convictions at play in these documents. This book reveals how both President George W. Bush and President Barack Obama wielded the personal power of the office to dramatically expand the power of the executive branch. During the War on Terror, the presidency shifted from an imperial form that avoided checks and balances, to a sovereign presidency where the executive branch had the ability to decide whether those checks and balances existed. As a result, Hiland argues that this shift to the sovereign presidency enabled the violation of human rights, myriad policy mistakes, and the degradation of democracy within the United States.*

NEW BEGINNING IN US-MUSLIM RELATIONS

PRESIDENT OBAMA AND THE ARAB AWAKENING

Springer This book carries out a comparative study of the US response to popular uprisings in the Middle East as an evaluation of President Barack Obama's foreign policy commitments. In 2009, Obama publicly pledged "a new beginning in US-Muslim relations," causing eager expectation of a clear shift in US foreign policy after the election of the 44th president of the United States. However, the achievement of such a shift was made particularly difficult by the existence of multiple, and sometimes conflicting, US interests in the region which influenced the Obama administration's response to the popular uprisings in five Muslim-majority countries: Egypt, Bahrain, Yemen, Libya, and Syria. After providing a detailed analysis of the traditional features of both US foreign policy rhetoric and practice, this book turns its focus to the Obama administration's response to the 2011 Arab Awakening to determine whether Obama's foreign policy has indeed brought about a new beginning in US-Muslim relations.

THE REPORT ON THE WORLD SOCIAL SITUATION 2016

LEAVING NO ONE BEHIND: THE IMPERATIVE OF INCLUSIVE DEVELOPMENT

United Nations In adopting the 2030 Agenda for Sustainable Development, world leaders committed themselves to leaving no one behind in pursuit of the eradication of extreme poverty and protection of the planet. Through concerted efforts galvanized by the MDGs, the world has made progress in reducing poverty, but social exclusion persists in both developed and developing countries. At the same time, some countries have been able to effectively promote inclusion even at low levels of income and development. This volume of the RWSS will focus on social inclusion. In particular, it will examine patterns of social exclusion and will assess whether growth and development processes have been inclusive, paying particular attention to the links between poverty and inequality trends, changes in the world of work and inclusion - or exclusion. The report will also highlight policy options to promote inclusive development through social and macroeconomic policies and institutional transformation for the implementation of the 2030 Agenda.

PIERCING THE CORPORATE VEIL IN LATIN AMERICAN JURISPRUDENCE

A COMPARISON WITH THE ANGLO-AMERICAN METHOD

Routledge This book is a comparative law study exploring the piercing of the corporate veil in Latin America within the context of the Anglo-American method. The piercing of the corporate veil is a remedy applied, in exceptional circumstances, to prevent and punish an inappropriate use of the corporate personality. The application of this remedy and the issues it involves has been widely researched in Anglo-American jurisdictions and, until recently, little attention has been given to this subject in Latin America. This region has been through internal political conflicts that undermined economic development. However, rise of democratic governments has created the political stability necessary for investment and economic development meaning that the corporate personality is now more commonly used in Latin America. Consequently, corporate personality issues have become a subject of study in this region. Drawing on case studies from Mexico, Colombia, Brazil and Argentina, Piercing the Corporate Veil in Latin American Jurisprudence examines the ingenuity of Latin American jurisdictions to deal with corporate personality issues and compares this method with the Anglo-American framework. Focusing in particular on the influence of two key factors- legal tradition and the uniqueness of each legal system- the author highlights both similarities and differences in the way in which the piercing of the corporate veil is applied in Latin American and Anglo-American jurisdictions. This book will be of great interest to scholars of company and comparative law, and business studies in general.

THE DEVELOPMENT OF SAUDI-IRANIAN RELATIONS SINCE THE 1990S

BETWEEN CONFLICT AND ACCOMMODATION

Taylor & Francis Saudi Arabia and Iran have established themselves as the two regional heavyweights in one of the world's most tumultuous but critically significant regions. The two countries compete on many fronts, including regional politics, oil prices, and for leadership of the Islamic world, a competition with undeniable repercussions for the Greater Middle East and for the world. Some observers have gone so far as to claim that virtually everything that happens in this area of the world can be viewed as part of the Saudi-Iranian power struggle. With increasing importance of the region as the dominant supplier of world energy and the birthplace of

Islamic militant groups, the consequences of not understanding Saudi-Iranian rivalry in the region have never been more serious. A range of internal and external explanatory factors explains the ups and downs of Saudi-Iranian relations since the 1990s. This book captures this complexity by drawing on multicausal explanations through multiple levels of interdisciplinary analysis. This is the first book on the subject that is co-authored by one author from Saudi Arabia and one from Iran. This collaboration allowed the authors to make the best use of Persian and Arabic sources, generating a locally meaningful account of the two countries' relationship. As Iranian and Saudi nationals, they encountered less difficulty in gaining access to research participants, building rapport and conducting interviews with Iranian and Saudi scholars and informants.

MILITARY REVIEW

INVESTIGATING SOCIAL PROBLEMS

SAGE "Given the complexity of the issues, the study of social problems requires, indeed demands, specialized focus by experts." -A. Javier Treviño Welcome to a new way of Investigating Social Problems. In this groundbreaking new text, general editor A. Javier Treviño, working with a panel of experts, thoroughly examines all aspects of social problems, providing a contemporary and authoritative introduction to the field. Each chapter is written by a specialist on that particular topic. This unique, contributed format ensures that the research and examples provided are the most current and relevant in the field. The chapters carefully follow a model framework to ensure consistency across the entire text and provide continuity for the reader. The text is framed around three major themes: intersectionality (the interplay of race, ethnicity, class, and gender), the global scope of many problems, and how researchers take an evidence-based approach to studying problems.

PREVENTIVE DETENTION OF TERROR SUSPECTS

A NEW LEGAL FRAMEWORK

Routledge Preventive detention as a counter-terrorism tool is fraught with conceptual and procedural problems and risks of misuse, excess and abuse. Many have debated the inadequacies of the current legal frameworks for detention, and the need for finding the most appropriate legal model to govern detention of terror suspects that might serve as a global paradigm. This book offers a comprehensive and critical analysis of the detention of terror suspects under domestic criminal law, the law of armed conflict and international human rights law. The book looks comparatively at the law in a number of key jurisdictions including the USA, the UK, Israel, France, India, Australia and Canada and in turn compares this to preventive detention under the law of armed conflict and

various human rights treaties. The book demonstrates that the procedures governing the use of preventive detention are deficient in each framework and that these deficiencies often have an adverse and serious impact on the human rights of detainees, thereby delegitimizing the use of preventive detention. Based on her investigation Diane Webber puts forward a new approach to preventive detention, setting out ten key minimum criteria drawn from international human rights principles and best practices from domestic laws. The minimum criteria are designed to cure the current flaws and deficiencies and provide a base line of guidance for the many countries that choose to use preventive detention, in a way that both respects human rights and maintains security.

LANGUAGE AND LINGUISTIC DIVERSITY IN THE US

AN INTRODUCTION

Routledge This highly engaging textbook presents a linguistic view of the history, society, and culture of the United States. It discusses the many languages and forms of language that have been used in the US - including standard and nonstandard forms of English, creoles, Native American languages, and immigrant languages from across the globe - and shows how this distribution and diversity of languages has helped shape and define America as well as an American identity. The volume introduces the basic concepts of sociolinguistics and the politics of language through cohesive, up-to-date and accessible coverage of such key topics as dialectal development and the role of English as the majority language, controversies concerning language use in society, languages other than English used in the US, and the policies that have directly or indirectly influenced language use. These topics are presented in such a way that students can examine the inherent diversity of the communicative systems used in the United States as both a form of cultural enrichment and as the basis for socio-political conflict. The author team outlines the different viewpoints on contemporary issues surrounding language in the US and contextualizes these issues within linguistic facts, to help students think

critically and formulate logical discussions. To provide opportunities for further examination and debate, chapters are organized around key misconceptions or questions ("I don't have an accent" or "Immigrants don't want to learn English"), bringing them to the forefront for readers to address directly. Language and Linguistic Diversity in the US is a fresh and unique take on a widely taught topic. It is ideal for students from a variety of disciplines or with no prior knowledge of the field, and a useful text for introductory courses on language in the US, American English, language variation, language ideology, and sociolinguistics.

HANDBOOK OF DEFENCE POLITICS

INTERNATIONAL AND COMPARATIVE PERSPECTIVES

Taylor & Francis Issues of defence politics and policy have long been at the forefront of political agendas and defining of international affairs. However, the dramatic changes to the global system that have taken place since the end of the Cold War and particularly since the terror attacks on the USA on 11 September 2001 have amplified the world's attention toward political and policy issues of national, regional and global security. The focus of this volume is on examining the fundamental causes of, and defence policy responses to this new 'post-9/11' security environment. Edited by Isaiah (Ike) Wilson III and James J. F. Forest of the US Military Academy, West Point, USA, this volume is international in scope, with pieces written by experts in the field, offering a collection of up-to-date and balanced insights on key contemporary issues of concern to defence policymakers. The book will be an invaluable reference tool for academics and students, researchers in international relations, policymakers, media professionals and government officials.

OXFORD LATIN COURSE

Oxford University Press, USA Designed for North American students, this special version of the Oxford Latin Course combines the best features of both modern and traditional methods of Latin teaching, providing an exciting, stimulating introduction and approach to Latin based on the reading of original texts. In this four-volume North American edition, the order of declensions corresponds to customary U.S. usage, and the spelling has been Americanized. In addition, it offers full-color illustrations and photographs throughout Parts I and II and an expanded Teacher's Book with translations for each part. CHALLENGING ACADEMIA

MDPI Some social issues and practices have become dangerous areas for academics to research and write about. 'Academic freedom' is increasingly constrained, not just by long established 'normal' factors (territoriality, power differentials, competition, protectionism), but also by the increased significance of social media and the rise of identity politics (and activists who treat work which challenges their world view as abusive hate-speech). So extreme are these pressures that some institutions and even statutory bodies now adopt policies and practices which contravene relevant regulations and laws. This book seeks to draw attention to the limiting and damaging effects of academic 'gagging'. The book, drawn from a special edition of Societies, offers an eclectic series of international articles which may annoy some people. The book challenges taken for granted mainstream assumptions and practices in a number of areas, including gender mainstreaming, social work education, child sexual abuse, the ethnic disaggregation of population groups, fatherhood and masculinity, the erosion of democratic legitimacy, the trap of victimhood and vulnerability, employment practices in universities, and the challenges presented by the widespread and deliberate suppression of scholarship and research. In an analytic postscript Laurent Dubreuil discusses the nature of identity politics and the manner in which its effects can be identified across the many topics covered in these challenging articles.

FACING GLOBAL ENVIRONMENTAL CHANGE

ENVIRONMENTAL, HUMAN, ENERGY, FOOD, HEALTH AND WATER SECURITY CONCEPTS

Springer Science & Business Media The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally. Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth - sessment Report (AR4) of the Intergovernmental Panel on Climate Change (IPCC), which were disseminated on a large scale and reported extensively by the media. This was the result not only of a heightened interest on the part of the public on various aspects of climate change, but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large. The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US, Al Gore. By taking this decision in favour of a leader who has done a great deal to create awareness on c- mate change, and a body that assesses all scientific aspects of climate change and disseminates the result of its findings, the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world.

BEYOND "HOLY WARS"

FORGING SUSTAINABLE PEACE THROUGH INTERRELIGIOUS DIALOGUE—A CHRISTIAN PERSPECTIVE

Wipf and Stock Publishers The 9/11 al-Qaeda attacks on the U.S. in 2001 shocked the world, not only because of their viciousness but also because of the disillusionment that "holy wars" are a phenomenon of the past. "Holy wars," rather, are a reality in today's world too, threatening global peace like never before. In this volume Christoffer Grundmann pleads for the cultivation of religious literacy and interreglious dialogue. First, he attempts to regain an adequate understanding of religion by showing the incompatibility of abstract concepts of religion with religions actually lived. So Grundmann suggests perceiving religion as the lived relationship toward an Ultimate. Given that interreligious dialogue is communication about diverse ways of relating to the Ultimate, the religiously embedded, primarily Jewish philosophy of encounter and dialogical thinking--with its personalistic nature--comes into focus here as uniquely suited for such communication. Even though interreligious encounter implies risk, Christians cannot but engage in it

fearlessly, says Grundmann, because they trust that the risen Christ will reveal himself anew as the one he really is, wherever and whenever Christians take part in dialogue with people of other faiths.
