A Critical Reading

McFarland "By looking at different trickster narratives and a wide variety of primary and secondary resources on Allen Ginsberg as well as his poetry, this study seeks to contribute to the current literature on the poetry of the Beats and of Allen Ginsberg, specifically his "Howl," and the ways it continues to expand in meaning, depth, and significance today"--Provided by publisher.

The Warhol Economy

How Fashion, Art, and Music Drive New York City - New Edition

Princeton University Press Which is more important to New York City's economy, the gleaming corporate office--or the grungy rock club that launches the best new bands? If you said "office," think again. In *The Warhol Economy*, Elizabeth Currid argues that creative industries like fashion, art, and music drive the economy of New York as much as--if not more than--finance, real estate, and law. And these creative industries are fueled by the social life that whirls around the clubs, galleries, music venues, and fashion shows where creative people meet, network, exchange ideas, pass judgments, and set the trends that shape popular culture. The implications of Currid's argument are far-reaching, and not just for New York. Urban policymakers, she suggests, have not only seriously underestimated the importance of the cultural economy, but they have failed to recognize that it depends on a vibrant creative social scene. They haven't understood, in other words, the social, cultural, and economic mix that Currid calls the Warhol economy. With vivid first-person reporting about New York's creative scene, Currid takes the reader into the city spaces where the social and economic lives of creativity merge. The book has fascinating original interviews with many of New York's important creative figures, including fashion designers Zac Posen and Diane von Furstenberg, artists Ryan McGinness and Futura, and members of the band Clap Your Hands Say Yeah. The economics of art and culture in New York and other cities has been greatly misunderstood and underrated. *The Warhol Economy* explains how the cultural economy works--and why it is vital to all great cities.

The Countercultural Connection

between the Beat Generation and Bob Dylan

EN Research challenges for anglophone studies in the 21st century

Ediciones Universidad de Salamanca Desde un punto de vista cuantitativo, los estudios culturales ocupan sin duda un espacio menor. Sin embargo, los tres artículos aquí presentados dan cuenta de la variedad de perspectivas posibles dentro de este apartado. No solo abarcan estos estudios diferentes géneros literarios, sino que recorren diferentes épocas históricas, desde el renacimiento hasta nuestros días. Así, destaca la recepción de la obra de Shakespeare adaptada a los principios estéticos del siglo XVIII español, la aparición de un problema tan actual como la violencia doméstica en el teatro y el cine de mediados del siglo XX o la vinculación de posicionamientos contraculturales de la generación Beat en la música de Bob Dylan. Todos estos estudios exploran, pues, la relación entre las prácticas culturales, la vida diaria y los contextos históricos en los que se producen. Como suele ser habitual, gran parte de las contribuciones presentadas en este volumen se centran en el estudio del aprendizaje del inglés como segunda lengua, una de las principales preocupaciones del sistema educativo español en estos momentos, tanto en la etapa preuniversitaria como universitaria. Es lógico, por tanto, que estos jóvenes investigadores muestren interés por un asunto que atañe a un elevado número de estudiantes en la sociedad actual. Los estudios van desde el análisis de libros de texto utilizados en la enseñanza del inglés, para comprobar si estos textos adoptan correctamente las cuatro destrezas básicas (listening, speaking, speaking, writing) al aprendizaje de la lengua desde el punto de vista de una aproximación comunicativa, hasta la relación de la prosodia y la utilización de audífonos por parte de personas sordas o la percepción que tienen los estudiantes de la pronunciación del inglés. Como se ve, problemas muy cercanos a la realidad pedagógica. Las contribuciones literarias se centran exclusivamente en autores del siglo XX (incluida una adaptación al Londres actual de una obra de Shakespeare), pero recorren todos los géneros literarios, así como el cine. En general, estos estudios se fijan en obras concretas y las analizan desde perspectivas culturales, sociológicas o psicológicas. Podemos encontrar autores consagrados, como Theodore Roethke y Ted Hughes o escritoras más localistas, como la canadiense Jeannette Armstrong, y sobresalen miradas postmodernistas, tanto en el ámbito de la novela como del cine. En definitiva, se trata de una selección de artículos altamente prometedora, que supone un claro desafío al futuro de los Estudios Ingleses. Por todo ello, hay que felicitar a todos los participantes y, sobre todo, a los editores de este volumen, que han

demostrado una enorme capacidad de trabajo y entusiasmo.

The Story and Its Writer Compact An Introduction to Short Fiction

Bedford/St. Martin's Suitable for a variety of courses, the compact edition of Ann Charters' bestselling *The Story and Its Writer* (now in print or e-book formats) offers about half the stories and commentaries of the full edition, with all of its highly-praised editorial features. No one has a better sense than Ann Charters of which stories work most effectively in the classroom and instructors look forward to every new edition of her anthology to see what her constant search for new fiction and neglected classics will turn up. Further, Charters knows that writers, not editors, have the most interesting and useful things to say about the making and the meaning of fiction, so to complement the stories, she offers her signature innovation: an array of the writers' own commentaries on the craft and traditions of storytelling. For in-depth, illustrated studies of particular writers or genres, her Casebooks provide unparalleled opportunities for discussion and writing. The new ninth edition features many very recent stories and commentaries by up-and-coming writers, a new Casebook on the important genre of Magical Realism, and expanded coverage of close reading.

Research challenges for anglophone studies in the 21st century

Ediciones Universidad de Salamanca Once again young researchers of Spanish universities in the field of English Studies unite their efforts to present a new volume of excellent collaborations under the title of RESEARCH CHALLENGES FOR ANGLOPHONE STUDIES IN THE 21st CENTURY. The title not only does not disappoint readers' expectations, but also responds to the main concerns of the latest research carried out in our present academic system. This volume, following the model of previous publications, centres on the three major research areas related with English Studies that include cultural, linguistic and literary investigations. Interdisciplinary approaches to English-speaking studies remain the spinal axis of this publication.

1956, The World in Revolt

Faber & Faber Popular uprisings in Poland and Hungary shake Moscow's hold on its eastern European empire. Across the American South, and in the Union of South Africa, black people risk their livelihoods, and their lives, in the struggle to dismantle institutionalised white supremacy and secure first-class citizenship. France and Britain, already battling anti-colonial insurgencies in Algeria and Cyprus, now face the humiliation of Suez. Meanwhile, in Cuba, Fidel Castro and his band of rebels take to the Sierra Maestra to plot the overthrow of a dictator... 1956 was one of the most remarkable years of the twentieth century. All across the globe, ordinary people

spoke out, filled the streets and city squares, and took up arms in an attempt to win their freedom. In response to these unprecedented challenges to their authority, those in power fought back, in a desperate bid to shore up their position. It was an epic contest, and one which made 1956 - like 1789 and 1848 - a year that changed our world.

Beat Down to Your Soul

What was the Beat Generation?

Penguin (Non-Classics) *An anthology of works by Beat figures, as well as essays and commentaries, explores the light side of the Beat generation, its impact on post-World War II American culture, and the contribution of women authors.*

Troia

Dalkey Archive Press *In this newly rediscovered memoir, Bonnie Bremser, ex-wife of Beat-poet Ray Bremser, chronicles her life on the run from the law in the early Sixties. When Ray fled to Mexico in 1961 to avoid imprisonment for armed robbery, a crime he claimed he did not commit, Bonnie followed with their baby daughter, Rachel. In a foreign country with no money and little knowledge of the language, Bonnie was forced into a life of prostitution to support her family and their drug habit. Just twenty-three years old, Bonnie was young and inexperienced, but very much in love with her husband; indeed, she was ready to go to any lengths in an attempt to keep their small family alive and together, even if it meant becoming a troia.*

Diane di Prima

Visionary Poetics and the Hidden Religions

Bloomsbury Publishing USA *Diane di Prima: Visionary Poetics and the Hidden Religions reveals how central di Prima was in the discovery, articulation and dissemination of the major themes of the Beat and hippie countercultures from the fifties to the present. Di Prima (1934--) was at the center of literary, artistic, and musical culture in New York City. She also was at the energetic fulcrum of the Beat movement and, with Leroi Jones (Amiri Baraka), edited The Floating Bear (1961-69), a central publication of the period to which William S. Burroughs, Jack Kerouac, Allen Ginsberg, Charles Olson, and Frank O'Hara contributed. Di Prima was also a pioneer in her challenges to conventional assumptions regarding love, sexuality, marriage, and the role of women. David Stephen Calonne charts the life work of di Prima through close readings of her poetry, prose, and autobiographical writings, exploring*

her thorough immersion in world spiritual traditions and how these studies informed both the form and content of her oeuvre. Di Prima's engagement in what she would call "the hidden religions" can be divided into several phases: her years at Swarthmore College and in New York; her move to San Francisco and immersion in Zen; her researches into the I Ching, Paracelsus, John Dee, Heinrich Cornelius Agrippa, alchemy, Tarot, and Kabbalah of the mid-sixties; and her later interest in Tibetan Buddhism. *Diane di Prima: Visionary Poetics and the Hidden Religions* is the first monograph devoted to a writer of genius whose prolific work is notable for its stylistic variety, wit and humor, struggle for social justice, and philosophical depth.

Mark Mothersbaugh

Myopia

Chronicle Books *Mark Mothersbaugh* is a legendary figure for fans of both street art and music culture. Cofounder of the seminal New Wave band DEVO, he was a prolific visual artist before the band's inception moving seamlessly between multiple mediums creating bold, cartoonish, strangely disturbed works of pop surrealism that playfully explore the relationship between technology and individuality. In the most comprehensive presentation of his work to date, *Mark Mothersbaugh: Myopia* features a lifetime of his creative inventions from the beginning of his artistic career in the 1970s to his most recent work, including early postcards, screen prints, decals, and DEVO ephemera as well as later paintings, photographs (such as the celebrated *Beautiful Mutants* series), sculpture, and rugs. Accompanied by a major six city traveling exhibition, this richly illustrated catalog positions Mothersbaugh as a pivotal figure in the history of both contemporary art and indie culture.

Strengthening Forensic Science in the United States

A Path Forward

National Academies Press Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement

officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Kerouac's love of America, his compassion for humanity, and his sense of language as jazz combine to make *On the Road* an inspirational work of lasting importance. Kerouac's classic novel of freedom and longing defined what it meant to be "Beat" and has inspired every generation since its initial publication more than fifty years ago. This Penguin Classics edition contains an introduction by Ann Charters. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Poems from the Women's Movement

(American Poets Project #28)

Library of America *"In 1965, Sylvia Plath's posthumous Ariel took the literary world by storm with its fierce and undeniably female voice. For the next 15 years, America saw a historic outpouring of women's poetry supported by and supporting the women's movement. As editor Moore points out, poetry was vital to the movement, articulating previously unexpressed lives, empowering others as the poets found their own power. . . . And all who missed these missiles and epistles then will find them still demanding and invigorating."—Booklist (starred review) "What would happen if one woman told the truth about her life? / The world would split open." These lines by Muriel Rukeyser epitomize the spirit that animated a whole generation of women poets, from the 1960s to the 1980s, who in exploring the unspoken truths of their lives sparked a literary revolution. Honor Moore's anthology presents fifty-eight poets whose work defines an era, among them Sylvia Plath, Adrienne Rich, Anne Sexton, Sonia Sanchez, May Swenson, Alice Walker, Audre Lorde, Anne Waldman, Sharon Olds, Diane Di Prima, Lucille Clifton, Judy Grahn, Alice Notley, and Eileen Myles. Here is a fresh and revelatory look at a crucial time in American poetry that presents the full range of its themes and approaches and a generous sampling of its most compelling voices. About the American Poets Project Elegantly designed in compact editions, printed on acid-free paper, and textually authoritative, the American Poets Project makes available the full range of the American poetic accomplishment, selected and introduced by today's most discerning poets and critics.*

Anna Karenina

Lindhardt og Ringhof *Many consider 'Anna Karenina' to be the greatest novel of all time. A profound and exhaustive exploration of Russian life and the human condition. Tolstoy creates one of the most complex heroines in literature as he details Anna falling a conscious victim to her own passion. The dramatic scope of the story, the memorable characters, and the wealth of emotions that Tolstoy displays render*

'Anna Karenina' much more than a novel, but rather an unmissable chronicle of the human condition that transcends both space and time. A perfect delve into Russian literature for those who enjoyed Christy Lefteri's 'The Beekeeper of Aleppo'. Leo Tolstoy (1828-1910) was a Russian author. His focus was novels, but he also wrote many short stories, alongside essays and plays in his later life. Deemed the master of realistic fiction, his novel 'Anna Karenina' (1875-77) is considered to be the greatest novel of all time. Some of his other notable works include 'War and Peace' (1865-69), 'The Kingdom of God is Within You' (1894), and his final novel 'Resurrection' (1899). His frank examinations of the world around him are unmissable for fans of Fyodor Dostoyevsky, Anton Chekhov, and Virginia Woolf, who was openly inspired by Tolstoy's ideas about social class.

When Scotland Was Jewish

DNA Evidence, Archeology, Analysis of Migrations, and Public and Family Records Show Twelfth Century Semitic Roots

McFarland *The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.*

Behavioral Finance: The Second Generation

CFA Institute Research Foundation *Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.*

Brother-Souls

John Clellon Holmes, Jack Kerouac, and the Beat Generation

Univ. Press of Mississippi *John Clellon Holmes met Jack Kerouac on a hot New York City weekend in 1948, and until the end of Kerouac's life they were—in Holmes's words—"Brother Souls." Both were neophyte novelists, hungry for literary fame but just as hungry to find a new way of responding to their experiences in a postwar*

American society that for them had lost its direction. Late one night as they sat talking, Kerouac spontaneously created the term "Beat Generation" to describe this new attitude they felt stirring around them. *Brother Souls* is the remarkable chronicle of this cornerstone friendship and the life of John Clellon Holmes. From 1948 to 1951, when Kerouac's wanderings took him back to New York, he and Holmes met almost daily. Struggling to find a form for the novel he intended to write, Kerouac climbed the stairs to the apartment in midtown Manhattan where Holmes lived with his wife to read the pages of Holmes's manuscript for the novel *Go* as they left the typewriter. With the pages of Holmes's final chapter still in his mind, he was at last able to crack his own writing dilemma. In a burst of creation in April 1951 he drew all the materials he had been gathering into the scroll manuscript of *On the Road*. Biographer Ann Charters was close to John Clellon Holmes for more than a decade. At his death in 1988 she was one of a handful of scholars allowed access to the voluminous archive of letters, journals, and manuscripts Holmes had been keeping for twenty-five years. In that mass of material waited an untold story. These two ambitious writers, Holmes and Kerouac, shared days and nights arguing over what writing should be, wandering from one explosive party to the next, and hanging on the new sounds of bebop. Through the pages of Holmes's journals, often written the morning after the events they recount, Charters discovered and mined an unparalleled trove describing the seminal figures of the Beat Generation: Holmes, Kerouac, Neal Cassady, Allen Ginsberg, William Burroughs, Gregory Corso, and their friends and lovers.

The Financial Crisis Inquiry Report

The Final Report of the National Commission on the Causes of the Financial and Economic Crisis in the

United States Including Dissenting Views

Cosimo, Inc. *The Financial Crisis Inquiry Report*, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." The Universal Declaration of Human Rights in the 21st Century

A Living Document in a Changing World

Open Book Publishers *The Global Citizenship Commission was convened, under the leadership of former British Prime Minister Gordon Brown and the auspices of NYU's Global Institute for Advanced Study, to re-examine the spirit and stirring words of The Universal Declaration of Human Rights. The result - this volume - offers a 21st-century commentary on the original document, furthering the work of human rights and illuminating the ideal of global citizenship. What does it mean for each of us to be members of a global community? Since 1948, the Declaration has stood as a beacon and a standard for a better world. Yet the work of making its ideals real is far from over. Hideous and systemic human rights abuses continue to be perpetrated at an alarming rate around the world. Too many people, particularly those in power, are hostile to human rights or indifferent to their claims. Meanwhile, our global interdependence deepens. Bringing together world leaders and thinkers in the fields of politics, ethics, and philosophy, the Commission set out to develop a common understanding of the meaning of global citizenship - one that arises from basic human rights and empowers every individual in the world. This landmark report affirms the Universal Declaration of Human Rights and seeks to renew the 1948 enterprise, and the very ideal of the human family, for our day and generation.*

Investing in Cultural Diversity and Intercultural Dialogue

UNESCO *This report analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.*

Change Forces

Probing the Depths of Educational Reform

Routledge *Knowledge of the processes of educational change is said to be the missing ingredient in attempts to bring about educational innovation and reform. Whether these efforts involve grass roots innovation or large-scale societal reform,*

failure to understand and act on existing knowledge of the change process has accounted for the widespread lack of success in making educational improvements. This volume analyzes what is known about successful or productive change processes, and identifies corresponding action strategies at the individual, school, local and state levels. Included in this book is a major treatment of the topic of the 'ethics of planned change', a neglected topic in recent literature, especially since strategies for intervening in the change process are receiving more attention. This book is intended to be used by teachers in training and in service, teacher trainers, educational researchers, education historians and administrators.
