### CYCLE INFRASTRUCTURE DESIGN

Stationery Office/Tso **Encouraging more people to cycle is increasingly being seen as a vital part of any local authority plan to tackle congestion, improve air quality, promote physical activity and improve accessibility. This design guide brings together and updates guidance previously available in a number of draft Local Transport Notes and other documents. Although the focus is the design of cycle infrastructure, parts of its advice are equally appropriate to improving conditions for pedestrians. Individual chapters cover: general design parameters; signing issues; network management; reducing vehicle speeds on cycle routes; bus and tram routes; cycle lanes; off-road cycle routes; junctions; cycle track crossings; cycle parking; public transport integration. A list of references and an appendix of related publications complete the book. It is hoped that, by bringing together relevant advice in a single document, this guide will make it easier for local authorities to decide what provision, if any, is required to encourage more people to cycle.**

### 3D LASER SCANNING FOR HERITAGE

### ADVICE AND GUIDANCE ON THE USE OF LASER SCANNING IN ARCHAEOLOGY AND ARCHITECTURE

The first edition of 3D Laser Scanning for Heritage was published in 2007 and originated from the Heritage3D project that in 2006 considered the development of professional guidance for laser scanning in archaeology and architecture. Publication of the second edition in 2011 continued the aims of the original document in providing updated guidance on the use of three-dimensional (3D) laser scanning across the heritage sector. By reflecting on the technological advances made since 2011, such as the speed, resolution, mobility and portability of modern laser scanning systems and their integration with other sensor solutions, the guidance presented in this third edition should assist archaeologists, conservators and other cultural heritage professionals unfamiliar with the approach in making the best possible use of this now highly developed technique.

## THE FINANCIAL CRISIS INQUIRY REPORT

---

### THE FINAL REPORT OF THE NATIONAL COMMISSION ON THE CAUSES OF THE FINANCIAL AND ECONOMIC CRISIS IN THE UNITED STATES INCLUDING DISSENTING VIEWS

---

**Cosimo, Inc.** The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector **DANNY SCHECHTER** is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. ### EDIBLE INSECTS

---

#### FUTURE PROSPECTS FOR FOOD AND FEED SECURITY

---

**Food & Agriculture Org** Edible insects have always been a part of human diets, but in some societies there remains a degree of disdain and disgust for their consumption. Insects offer a significant opportunity to merge traditional knowledge and modern science to improve human food security worldwide. This publication describes the contribution of insects to food security and examines future prospects for raising insects at a commercial scale to improve food and feed production, diversify diets, and support livelihoods in both developing and developed countries. Edible insects are a promising alternative to the conventional production of meat, either for direct human consumption or for indirect use as feedstock. This publication will boost awareness of the many valuable roles that insects play in sustaining nature and human life, and it will stimulate debate on the expansion of the use of insects as food and feed.

---

#### **GUIDANCE FOR MAINSTREAM AND SPECIAL SCHOOLS**

---

Stationery Office/Tso **Building Bulletin 102 provides a framework for designing new school buildings for disabled children and children with special educational needs (SEN) within any setting, mainstream or special. The purpose of this title is to offer a strategic master plan and a carefully considered brief to ensure that the design takes on board the organisation, aims and priorities of the school. This bulletin sets out 'inclusive design principles' that should underpin every project for disabled children and those with SEN. Case studies and illustrated examples are provided to show how these design principles can be implemented. The central chapters are divided by phase of education, highlighting to local authorities and all those involved in the early stages of a project the key features when designing specific school spaces. Technical guidance follows, covering building construction, environmental services and the ICT needed to support children with SEN and disabilities. Supersedes and replaces Building bulletins 77, Designing for pupils with special educational needs (1992, ISBN 9780112707967), 91, Access for disabled people to school buildings (1999, ISBN 9780112710622) and 94, Inclusive school design (2001, ISBN 9780112711094).**
