DESIGNING FOR DISABLED CHILDREN AND CHILDREN WITH SPECIAL EDUCATIONAL NEEDS

GUIDANCE FOR MAINSTREAM AND SPECIAL SCHOOLS

Stationery Office/Tso *Building Bulletin 102 provides a framework for designing new school buildings for disabled children and children with special educational needs (SEN) within any setting, mainstream or special. The purpose of this title is to offer a strategic master plan and a carefully considered brief to ensure that the design takes on board the organisation, aims and priorities of the school. This bulletin sets out 'inclusive design principles' that should underpin every project for disabled children and those with SEN. Case studies and illustrated examples are provided to show how these design principles can be implemented. The central chapters are divided by phase of education, highlighting to local authorities and all those involved in the early stages of a project the key features when designing specific school spaces. Technical guidance follows, covering building construction, environmental services and the ICT needed to support children with SEN and disabilities. Supersedes and replaces Building bulletins 77, Designing for pupils with special educational needs (1992, ISBN 9780112707967), 91, Access for disabled people to school buildings (1999, ISBN 9780112710622) and 94, Inclusive school design (2001, ISBN 9780112711094).*

MISTER PIP

Hachette UK *'You cannot pretend to read a book. Your eyes will give you away. So will your breathing. A person entranced by a book simply forgets to breathe. The house can catch alight and a reader deep in a book will not look up until the wallpaper is in flames'. Bougainville, 1991. A small village on a lush tropical island in the South Pacific. Eighty-six days have passed since Matilda's last day of school as, quietly, war is encroaching from the other end of the island. When the villagers' safe, predictable lives come to a halt, Bougainville's children are surprised to find the island's only white man, a recluse, reopening the school. Pop Eye, aka Mr Watts, explains he will introduce the children to Mr Dickens. Matilda and the others think a foreigner is coming to the island and prepare a list of much needed items. They are shocked to discover their acquaintance with Mr Dickens will be through Mr Watts' inspiring reading of Great Expectations. But on an island at war, the power of fiction has dangerous consequences. Imagination and beliefs are challenged by guns. Mister Pip is an unforgettable tale of survival by story; a dazzling piece of writing that lives long in the mind after the last page is finished.*

THE AGE OF SURVEILLANCE CAPITALISM

THE FIGHT FOR A HUMAN FUTURE AT THE NEW FRONTIER OF POWER

Profile Books *THE TOP 10 SUNDAY TIMES BESTSELLER Shortlisted for the FT Business Book of the Year Award 2019 'Easily the most important book to be published this century. I find it hard to take any young activist seriously who hasn't at least familiarised themselves with Zuboff's central ideas.' - Zadie Smith, The Guardian The challenges to humanity posed by the digital future, the first detailed*

examination of the unprecedented form of power called "surveillance capitalism," and the quest by powerful corporations to predict and control us. The heady optimism of the Internet's early days is gone. Technologies that were meant to liberate us have deepened inequality and stoked divisions. Tech companies gather our information online and sell it to the highest bidder, whether government or retailer. Profits now depend not only on predicting our behaviour but modifying it too. How will this fusion of capitalism and the digital shape our values and define our future? Shoshana Zuboff shows that we are at a crossroads. We still have the power to decide what kind of world we want to live in, and what we decide now will shape the rest of the century. Our choices: allow technology to enrich the few and impoverish the many, or harness it and distribute its benefits. *The Age of Surveillance Capitalism* is a deeply-reasoned examination of the threat of unprecedented power free from democratic oversight. As it explores this new capitalism's impact on society, politics, business, and technology, it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization. Most critically, it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves.

AS I WALKED OUT ONE MIDSUMMER MORNING

Penguin UK *As I Walked Out One Midsummer Morning* is the moving follow-up to Laurie Lee's acclaimed *Cider with Rosie* Abandoning the Cotswolds village that raised him, the young Laurie Lee walks to London. There he makes a living labouring and playing the violin. But, deciding to travel further a field and knowing only the Spanish phrase for 'Will you please give me a glass of water?', he heads for Spain. With just a blanket to sleep under and his trusty violin, he spends a year crossing Spain, from Vigo in the north to the southern coast. Only the outbreak of the Spanish Civil War puts an end to his extraordinary peregrinations . . . 'He writes like an angel and conveys the pride and vitality of the humblest Spanish life with unflinching sharpness, zest and humour' *Sunday Times* 'There's a formidable, instant charm in the writing that genuinely makes it difficult to put the book down' *New Statesman* 'A beautiful piece of writing' *Observer*

WHO GUIDELINES FOR INDOOR AIR QUALITY

SELECTED POLLUTANTS

World Health Organization This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

A WALK IN THE WOODS

Random House In the company of his friend Stephen Katz (last seen in the bestselling *Neither Here nor There*), Bill Bryson set off to hike the Appalachian Trail, the longest continuous footpath in the world. Ahead lay almost 2,200 miles of remote mountain wilderness filled with bears, moose, bobcats, rattlesnakes, poisonous plants, disease-bearing ticks, the occasional chuckling murderer and - perhaps most alarming of all - people whose favourite pastime is discussing the relative merits of the external-frame backpack. Facing savage weather, merciless insects, unreliable maps and a fickle companion whose profoundest wish was to go to a motel and watch *The X-Files*, Bryson gamely struggled through the wilderness to achieve a lifetime's ambition - not to die outdoors.

ECO-FRIENDLY AND FAIR

FAST FASHION AND CONSUMER BEHAVIOUR

Routledge The make-take-waste paradigm of fast fashion explains much of the producer and consumer behavior patterns towards fast fashion. The evolution from a two-season fashion calendar to fast fashion, characterized by rapid product cycles from retailers and impulse buying by consumers, presents new challenges to the environment, workplace and labour practices. This book provides a comprehensive overview of new insights into consumer behaviour mechanisms in order to shift practices toward sustainable fashion and to minimize the negative impacts of fast fashion on the environment and society. Concepts and techniques are presented that could overcome the formidable economic drivers of fast fashion and lead toward a future of sustainable fashion. While the need for change in the fashion industry post-Rana Plaza could not be more obvious, alternative and more sustainable consumption models have been under-investigated. The paucity of such research extends to highly consumptive consumer behaviours regarding fast fashion (i.e. impulse buying and throwaways) and the related impediments these behaviours pose for sustainable fashion. Written by leading researchers in the field of sustainable fashion and supported by the Textile Institute, this book evaluates fashion trends, what factors have led to new trends and how the factors supporting fast fashion differ from those of the past. It explores the economic drivers of fast fashion and what social, environmental and political factors should be maintained, and business approaches adopted, in order for fast fashion to be a sustainable model. In particular, it provides consumer behaviour concepts that can be utilized at the retail level to support sustainable fashion.
