Parenting Strategies to Help Adopted and Fostered Children with Their Behaviour

Trauma-Informed Guidance and Action Charts

Unseen Worlds

Looking Through the Lens of Childhood

Jessica Kingsley Publishers *The child's world often revolves around dreams and fantasy. Imaginary friends, places and play can seem entirely real, and yet in dismissing these as 'just your imagination', many adults cut a tie that can be the key to understanding a child. Unseen Worlds explores children's experiences of creative play, fairies, angels, imaginary friends, dreams and seeing deceased relatives alongside the more frightening realms of nightmares and the unexplained. It breaks new ground by giving voice to children*

of various ages to express how they encounter these different worlds and why they often keep them a secret. Kate Adams emphasises that whilst many adults forget what it feels like to be a child, developing a little empathy and understanding can enhance relationships with children and lead to positive change, both in parenting and professional practice. This insightful book will be of great interest to educators, counsellors, youth and community workers, childcare providers, parents and anybody else who seeks to understand, nurture, and strengthen relationships with children of all ages.

Managing Family Meltdown

The Low Arousal Approach and Autism

Jessica Kingsley Publishers Challenging behaviour, violent outbursts and meltdowns can put a strain on the entire family of a child on the autism spectrum. This book offers practical, long-term and effective strategies to help resolve common challenging behaviours using a low arousal approach – a non-aversive approach based on avoiding confrontation and reducing stress and anxiety. Managing Family Meltdown provides explanations for challenging behaviours, and offers a wealth of guidance on how families can manage different types of challenging behaviour, such as physical aggression and self-injury. The authors explore the difference between managing and changing behaviour; how our own behaviour can influence the situation; and show how by reducing stress and anxiety children are better able to process information becoming less likely to react in challenging ways. The pros and cons of medication and ways to look after your own health are also discussed. This hands-on, practical book is appropriate for children who are non-verbal, as well as those with higher functioning autism and will be indispensable for families, carers and anyone involved with children on the autism spectrum.

The Place of Lewis Carroll in Children's Literature

Routledge In this volume, Jan Susina examines the importance of Lewis Carroll and his popular Alice books to the field of children's literature. From a study of Carroll's juvenilia to contemporary multimedia adaptations of Wonderland, Susina shows how the Alice books fit into the tradition of literary fairy tales and continue to influence children's writers. In addition to examining Carroll's books for children, these essays also explore his photographs of children, his letters to children, his ill-fated attempt to write for a dual audience of children and adults, and his lasting contributions to publishing. The book addresses the important, but overlooked facet of

Carroll's career as an astute entrepreneur who carefully developed an extensive Alice industry of books and non-book items based on the success of Wonderland, while rigorously defending his reputation as the originator of his distinctive style of children's stories.

An Experimental Study of Children at Work and in School Between the Ages of Fourteen and Eighteen Years

The objective of this book is to better the care of boys and girls both here and elsewhere. The manuscript of this book was completed in 1922--a fact which needs to be kept in mind in reading it. Few changes have been made in it since then. The three years and more since its completion have been required to arrange for its publication and to put the manuscript through the press. It is sent out now with a keen appreciation of its shortcomings, statistical and otherwise, but with the hope that it may add something to our accurate knowledge of the conditions which surround youth. This book looks at the investigation and methods of children in school and at work between the ages of fourteen and eighteen years. (PsycINFO Database Record (c) 2006 APA, all rights reserved).

Bannú

Or Our Afghan Frontier

Bannú, or Our Afghan Frontier is an account of Bannu District in British India (located in present-day northwestern Pakistan). The Bannu Valley was seized by the East India Company in 1848 and the district formed in 1861. The author, Septimus Smet Thorburn, was an official in the Indian Civil Service and the settlement officer in the district. The book is in two parts. Part one, consisting of six chapters, covers the geography, history, and administrative system of Bannu, with emphasis on British rule and its interaction with local traditions, customs, and patterns of authority and land tenure and ownership. Part two, which comprises the bulk of the book, deals with customs and folklore. It includes an introductory chapter entitled "Social Life, Customs, Beliefs and Superstitions of the Peasantry," and separate chapters devoted to "Popular Stories, Ballads and Riddles" and "Pashto Proverbs Translated into English." The final chapter gives the texts of the same proverbs--406 in all--in Pushto. The stories, ballads, and riddles are brief--generally a few paragraphs--and are classed in five categories: humorous and moral, comic and jocular, fables, Marwat ballads (relating to the Pushto Marwat tribe living in Bannu), and riddles. The proverbs are grouped according to the topics to which they relate, for example, begging, boasting, bravery, and so forth, and for many of the proverbs a brief explanation is given of its meaning and application. A short appendix deals with the complicated system of land allotments in the different tappas (traditional subdivisions) of the Bannu

region. The book includes a map of the Bannu District with an inset map showing its relationship to the neighboring parts of Afghanistan and the regions of Waziristan, Kashmir, and the Punjab.

My Transportation For Life

Prabhat Prakashan The story is told. The curtain has been brought down on it. Two life-sentences have been run. And I have brought together my recollections of them within the cover of this book. They are narrated in brief and put together within the narrowest. When I came into this world, God sent me here possibly on a sort of life-sentence. It was the span of life allotted to me by time to stay in this 'prison-house of life'. This story is but a chapter of that book of life, which is a longer story not yet ended. You can finish reading the book in a day, while I had to live it for 14 long years of transportation. And if the story is so tiresome, unendurable and disgusting to you, how much must have been the living of it for me! Every moment of those 14 years in that jail has been an agony of the soul and the body to me, and to my fellow convicts in that jail. It was not only fatiguing, unbearable and futile to us all, it was equally or more excruciating to them as to me. And it is only that you may know it and feel the fatigue, the disgust and the pain of it as we have felt it, that I have chosen to write it for you. —Excerpts from this book *This is the story of Swatantrayaveer Vinayak Damodar Savarkar—a great revolutionary, politician, poet and seer who tried to free India from the British yoke! British policy was to torture and persecute the political prisoners/revolutionaries so that they would reveal the names of all their colleagues or go mad or commit suicide. My Transportation for Life is a firsthand story of the sufferings and humiliation of an inmate of the infamous Cellular Jail of Andamans, the legendary Kala Paani. The physical tortures inside the high walls were made all the more insufferable by the sickening attitude of the men who mattered—the native leaders back home. This is a running commentary on the prevalent political conditions in India and a treatise for students of revolution. It is a burning story of all Tapasvis who were transported to Andaman.*

What's wrong with the world?

eBook Edition

Jazzybee Verlag *In this volume Mr. Chesterton has tackled with his customary gaiety of heart and uncanny shrewdness of eye and hand no less a trinity than socialism, woman's suffrage, and the new education. He begins by proclaiming that what is wrong with the world is chiefly that we have got out of the habit of asking what is right before we begin the diagnosis of the evil and the eager advocacy of a remedy. His method is his favorite one of accepting the stock retorts of his adversaries at their face value, and proceeding to discover in these the ultimate confirmation of his own views and the utter confounding of theirs. All over, this book is full of brilliant, paradoxical and entertaining essays.*
