THE WHOLE-BRAIN CHILD

12 PROVEN STRATEGIES TO NURTURE YOUR CHILD'S DEVELOPING MIND

Hachette UK In this pioneering, practical book for parents, neuroscientist Daniel J. Siegel and parenting expert Tina Payne Bryson explain the new science of how a child's brain is wired and how it matures. Different parts of a child's brain develop at different speeds and understanding these differences can help you turn any outburst, argument, or fear into a chance to integrate your child's brain and raise calmer, happier children. Featuring clear explanations, age-appropriate strategies and illustrations that will help you explain these concepts to your child, *The Whole-Brain Child* will help your children to lead balanced, meaningful, and connected lives using twelve key strategies, including: *Name It to Tame It*: Corral raging right-brain behavior through left-brain storytelling, appealing to the left brain's affinity for words and reasoning to calm emotional storms and bodily tension. *Engage, Don't Enrage*: Keep your child thinking and listening, instead of purely reacting. *Move It or Lose It*: Use physical activities to shift your child's emotional state. *Let the Clouds of Emotion Roll By*: Guide your children when they are stuck on a negative emotion, and help them understand that feelings come and go. *SIFT*: Help children pay attention to the Sensations, Images, Feelings, and Thoughts within them so that they can make better decisions and be more flexible. *Connect Through Conflict*: Use discord to encourage empathy and greater social success.

HELPING PARENTS HELP THEIR KIDS

A CLINICAL GUIDE TO SIX CHILD PROBLEM BEHAVIORS

Psychology Press *Helping Parents Help Their Kids* is a guide both for clinicians who help families and for parents who have children with behavior problems. The author provides three ways to address clinical issues in designing and implementing child behavior management plans: a general behavioral consultation model, a specific behavioral model, and an empirically-tested advice package for problems that can occur in different family contexts. Each chapter provides early research on a specific strategy and several forms to use in the clinical environment. Parents will find this book helpful because the information is presented in a user-friendly format. The author explains how parents can learn specific strategies to deal with six common problems. These problems include: teaching both children and adolescents to comply with the rules of the house, dealing with disruptive behavior, and addressing problems in school. *Helping Parents Help Their Kids* offers both clinicians and parents effective procedures without the technical jargon many typical behavioral texts use. Instead, the author explains these methods in common-sense terms that will be a welcome change for all who want to find solutions for their child's behavioral problems.

TALK IT UP! TIPS FOR PARENTS ON TALKING TO THEIR CHILDREN ABOUT ALCOHOL

Birkdigital (A division of Birkdesign Inc.) Underage drinking is a serious problem that carries serious consequences for children and teens, as well as for their parents. The sooner parents start talking with their kids about alcohol, the better the results. In fact, did you know that up until eighth grade, kids still look to their parents for approval about their life choices? Once they get to high school, peer group approval starts to become a factor. Parents: This means that you have a window of opportunity to speak to your kids about not drinking, and to have your words make a difference! Of course, the big question is "how?" That's where we come in. The Illinois Liquor Control Commission—as part of our new Talk It Up! Campaign—has put together this tip book on ways to start the conversation with your eighth grader...and keep it going. Our best advice is to make talking about alcohol not THE talk, but an ongoing discussion. What follows are some ways to do that. Our second piece of advice? Start today. It is never too early to talk with your child or teen about drinking. Never.
