Essentials of Psychology: Concepts and Applications Cengage Learning The new edition of this brief introductory text retains the hallmark features that have made its parent text unique, while offering a more manageable, student-friendly format. The book was written with three goals in mind: to make the study of psychology accessible and engaging to the beginning student in psychology, to provide students with a solid grounding in the knowledge base in psychology, and to help students succeed in the course. Nevid's comprehensive learning system-derived from research on memory, learning, and textbook pedagogy-is featured throughout. This learning model incorporates what the author calls the Four E's of Effective Learning-Engaging Student Interest, Encoding Information, Elaborating Meaning, and Evaluating Progress. ESSENTIALS OF PSYCHOLOGY: CONCEPTS AND APPLICATIONS, 4th Edition, provides a broad view of psychology as well as applications of the knowledge gained from contemporary research to the problems and challenges we face in today's world. Illustrated Study Guide for the NCLEX-RN® Exam, 8th Edition covers all the nursing concepts and content found on the latest NCLEX-RN examination. A concise outline format makes studying easier, and 2,300 NCLEX exam-style review questions (including alternate item formats) are included to test your knowledge at the end of each chapter and on the Evolve companion website. Written by NCLEX expert JoAnn Zerwekh, this study guide uses colorful illustrations and mnemonic cartoons to help you remember key concepts for the NCLEX-RN exam. UNIQUE! Mnemonic cartoons provide a fun, easy way to review and remember key nursing concepts and disease processes. UNIQUE! The integrated systems approach incorporates pediatric, adult, and older adult lifespan considerations in each body system chapter. UNIQUE! Appendixes for each chapter summarize medications and nursing procedures for quick reference. Electronic alternate item format questions on Evolve prepare you for the interactive question types on the computerized NCLEX examination, including priority drag-and-drop and hot-spot (illustrated point-and-click) questions. Practice questions on the Evolve companion website are available in both study and quiz modes and separated by content area, allowing you to create a customized review experience based on your personal study needs. Answers and rationales for all review questions show why correct answers are right and incorrect options are wrong. NEW! 2,300 review questions are now included on the Evolve companion website. Two NEW alternate item question types are added: graphic options and questions incorporating audio. UPDATED content reflects the latest NCLEX-RN test plan and incorporated important clinical updates. NEW! Page references to an Elsevier textbook are provided with each question, for further study and self-remediation. NEW! Disorder names are highlighted in color in the index for quick reference. EXPANDED coverage of management of care reflects the increased percentage of this content on the NCLEX-RN test plan. Philosophy through Film Routledge Many of the classic questions of philosophy have been raised, illuminated, and addressed in celluloid. In this Third Edition of Philosophy through Film, Mary M. Litch teams up with a new co-author, Amy Karofsky, to show readers how to watch films with a sharp eye for their philosophical content. Together, the authors help students become familiar with key topics in all of the major areas in Western philosophy and master the techniques of philosophical argumentation. The perfect size and scope for a first course in philosophy, the book assumes no prior knowledge of philosophy. It is an excellent teaching resource and learning tool, introducing students to key topics and figures in philosophy through thematic chapters, each of which is linked to one or more "focus films" that illustrate a philosophical problem or topic. Revised and expanded, the Third Edition features: A completely revised chapter on "Relativism," now re-titled "Truth" with coverage of the correspondence theory, the pragmatist theory, and the coherence theory. The addition of four new focus films: Inception, Moon, Gone Baby Gone, God on Trial. Revisions to the General Introduction that include a discussion of critical reasoning. Revisions to the primary readings to better meet the needs of instructors and students, including the addition of three new primary readings: excerpts from Bertrand Russell's The Problems of Philosophy, from William James' Pragmatism: A New Way for Some Old Ways of Thinking, and from J. L. Mackie's "Evil and Omnipotence". Updates and expansion to the companion website, including a much expanded list of films relevant to the various subfields of philosophy. Films examined in depth include: Hilary and Jackie The Matrix Inception Memento Moon I, Robot Minority Report Crimes and Misdemeanors Gone Baby Gone Antz Equilibrium The Seventh Seal God on Trial Leaving Las Vegas The Project Management Answer Book Berrett-Koehler Publishers If it's essential to project management... it's in here! The first edition of The Project Management Answer Book addressed all the key principles of project management that every project manager needs to know. With a new chapter on scrum agile, updates throughout, and many new PMP® test tips, this new edition builds on that solid foundation. The structure of this update maps closely to the PMBOK® Guide, Fifth Edition, and is designed to assist anyone studying for the PMP® and other certification exams. Helpful sections cover: • Networking and social media tips for PMs, including the best professional organizations, virtual groups, and podcast resources • The formulas PMs need to know, plus a template to help certification candidates prepare and self-test for their exams • Quick study sheet for the processes covered on the PMP® exam • Key changes in PMBOK® Guide, Fifth Edition, for readers familiar with earlier versions who want "the skinny" on the new version. PMs at every level will find real gold in the information nuggets provided in this new edition. Those new to project management will find the comprehensive coverage and the depth of the answers especially valuable, and will like the easy-to-read style and Q&A format. For experienced managers looking for new tools and skills to help them pass their PMP® or other certification exams, this is a must-have resource. 5 Steps to a 5 AP Physics B, 2014 Edition McGraw Hill Professional Get ready for your AP exam with this straightforward and easy-to-follow study guide, updated for all the latest exam changes! 5 Steps to a 5: AP Physics B features an effective, 5-step plan to guide your preparation program and help you build the skills, knowledge, and test-taking confidence you need to succeed. Indian higher education is the third largest in the world. It is undergoing unprecedented expansion and reforms. Yet, no Indian university figures among the World's Top 100! The problem lies primarily with the quality of higher education. This book serves as a quality management guide for the heads of colleges and universities, focusing on issues, techniques and improvement at the institutional level. In building up a sound framework, it effectively combines generic methods and techniques with specific mechanisms of quality assurance for in-campus activities such as curriculum planning, teaching learning processes, human resource management, infrastructure management and information and communication technologies. The author's expertise as a management scientist, trainer of heads of higher education institutes and experience of institution building gives the book an extra edge. Artificial General Intelligence 13th International Conference, AGI 2020, St. Petersburg, Russia, September 16–19, 2020, Proceedings Springer Nature This book constitutes the refereed proceedings of the 13th International Conference on Artificial General Intelligence, AGI 2020, held in St. Petersburg, Russia, in September 2020. The 30 full papers and 8 short papers presented in this book were carefully reviewed and selected from 60 submissions. The papers cover topics such as AGI architectures, artificial creativity and AI safety, transfer learning, AI unification and benchmarks for AGI. The Concept of Care in Curriculum Studies Juxtaposing Currere and Hakbeolism Routledge The question at the heart of the book is what might an education with self-care and care-for-others look like? Juxtaposing self-understanding through the method of currere and the historical character of hakbeolism (a concept indigenous to Korea referring to a kind of social status people achieve based on a shared academic background), this book articulates how subjective reconstruction of self in conjunction with historical study can be transformative, and how this can be extended to social change. Articulating how having one's own standard can be a way of making one's life a work of art, the author looks at how Korean schooling exercises coercive care, disconfirmation, and the "whip of love" for the children's own good. Emphasis is given to the internalized status of these practices in both students and teachers and to teachers' and parents' culpability not only in exercising but also in reproducing these practices through themselves. Going beyond describing and analysing the educational problem of academic (intellectual) achievement-oriented education based on aggressive competition, this book suggests ways to address these issues through autobiography (using the method of currere to reconstruct one's own subjectivity) and an ethic of care. CCNA Data Center DCICN 640-911 Official Cert Guide Cisco Press Trust the best-selling Official Cert Guide series from Cisco Press to help you learn, prepare, and practice for exam success. This series is built with the objective of providing assessment, review, and practice to help ensure you are fully prepared for your certification exam. * Master Cisco CCNA Data Center DCICN 640-911 exam topics * Assess your knowledge with chapter-opening quizzes * Review key concepts with exam preparation tasks This is the eBook edition of the CCNA Data Center DCICN 640-911 Official Cert Guide. This eBook does not include the companion CD-ROM with practice exam that comes with the print edition. CCNA Data Center DCICN 640-911 Official Cert Guide from Cisco Press enables you to succeed on the exam the first time and is the only self-study resource approved by Cisco. Expert instructors and engineers Wendell Odom and Chad Hintz share preparation hints and test-taking tips, helping you identify areas of weakness and improve both your conceptual knowledge and hands-on skills. This complete, official study package includes * A test-preparation routine proven to help you pass the exam * "Do I Know This Already?" quizzes, which enable you to decide how much time you need to spend on each section * Chapter-ending and part-ending exercises, which help you drill on key concepts you must know thoroughly * A final preparation chapter that guides you through tools and resources to help you craft your review and test-taking strategies * A Nexus lab guide appendix, with advice for building hands-on Nexus labs * Study plan suggestions and templates to help you organize and optimize your study time Well regarded for its level of detail, study plans, assessment features, and challenging review questions and exercises, this official study guide helps you master the concepts and techniques that ensure your exam success. CCNA Data Center DCICN 640-911 Official Cert Guide is part of a recommended learning path from Cisco that includes simulation and hands-on training from authorized Cisco Learning Partners and self-study products from Cisco Press. To find out more about instructor-led training, e-learning, and hands-on instruction offered by authorized Cisco Learning Partners worldwide, please visit www.cisco.com. The official study guide helps you master topics on the CCNA Data Center DCICN 640-911 exam, including * Networking fundamentals * Installing, operating, and configuring Nexus switches * VLANs and trunking concepts and configuration * Spanning Tree Protocol (STP) concepts and configuration * IP addressing and subnetting * IPv6 fundamentals * Cisco Nexus IPv4 routing configuration and routing protocol implementation * IPv4 access control lists (ACL) on Nexus switches SAP Certified Application Associate - SAP Hana (Edition 2014) CreateSpace SAP Certified Application Associate - SAP HANA (Edition 2014) These questions are similar to the ones asked in the actual Test. How should I know? I know, because although I have been working as an SAP HANA Consultant for many years, I have myself recently certified with the latest version of the Associate Certification test. Before you start here are some Key features of the SAP HANA (Edition 2014) Associate Certification Exam. This certification exam verifies that the candidate has the knowledge required in the area of SAP HANA SP08. This certificate builds on the basic knowledge gained through related SAP HANA training and preferably refined by practical experience within an SAP HANA project team, whereby the consultant applies acquired knowledge in this specialist area practically in projects.. The exam is Computer based and you have three Hours to answer 80 Questions. The Questions are (mostly) multiple choice type and there is NO penalty for an incorrect answer. Some of the Questions have more than one correct answer. You must get ALL the options correct for you to be awarded points. For questions with a single answer, the answers will have a button next to them. You will be able to select only one button. For questions with multiple answers, the answers will have a 'tick box' next to them. This allows you to select multiple answers. You are not allowed to use any reference materials during the certification test (no access to online documentation or to any SAP system). Clearing the Certification will not automatically lead you to a job. However a Certification with some project experience will certainly open a lot of doors for you. So if you have little or no experience, you should get yourself certified, get some project experience, and then the whole of the SAP World open for you to explore. Helping you with the first step on you ladder to success is this book! Some UNIQUE features of this Book: - There is NO Other material in the market for the SAP Certified Application Associate - SAP HANA (Edition 2014) exam. - The authors have themselves cleared the exam. - All questions are multiple choice format, similar the questions you will get in the actual exam. - Over 220 authentic questions, testing the exact same concepts that will be tested in Your exam! Pediatric Nurse Practitioner Certification Review Guide Primary Care Jones & Bartlett Learning Pediatric Nurse Practitioner Certification Review Guide: Primary Care, Seventh Edition is an essential resource for nurses preparing for the PNP primary care certification exam offered by the Pediatric Nursing Certification Board (PNCB). With these enhancements and more, the Shelly Cashman Series continues to deliver the most effective educational materials for you and your students. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Handbook of Quantitative Methods for Detecting Cheating on Tests Taylor & Francis The rising reliance on testing in American education and for licensure and certification has been accompanied by an escalation in cheating on tests at all levels. Edited by two of the foremost experts on the subject, the Handbook of Quantitative Methods for Detecting Cheating on Tests offers a comprehensive compendium of increasingly sophisticated data forensics used to investigate whether or not cheating has occurred. Written for practitioners, testing professionals, and scholars in testing, measurement, and assessment, this volume builds on the claim that statistical evidence often requires less of an inferential leap to conclude that cheating has taken place than do other, more common sources of evidence. This handbook is organized into sections that roughly correspond to the kinds of threats to fair testing represented by different forms of cheating. In Section I, the editors outline the fundamentals and significance of cheating, and they introduce the common datasets to which chapter authors' cheating detection methods were applied. Contributors describe, in Section II, methods for identifying cheating in terms of improbable similarity in test responses, preknowledge and compromised test content, and test tampering. Chapters in Section III concentrate on policy and practical implications of using quantitative detection methods. Synthesis across methodological chapters as well as an overall summary, conclusions, and next steps for the field are the key aspects of the final section. Virtual and Augmented Reality: Concepts, Methodologies, Tools, and Applications Concepts, Methodologies, Tools, and Applications IGI Global Virtual and augmented reality is the next frontier of technological innovation. As technology exponentially evolves, so do the ways in which humans interact and depend upon it. Virtual and Augmented Reality: Concepts, Methodologies, Tools, and Applications is a comprehensive reference source for the latest scholarly material on the trends, techniques, and uses of virtual and augmented reality in various fields, and examines the benefits and challenges of these developments. Highlighting a range of pertinent topics, such as human-computer interaction, digital self-identity, and virtual reconstruction, this multi-volume book is ideally designed for researchers, academics, professionals, theorists, students, and practitioners interested in emerging technology applications across the digital plane. Artificial Intelligence Technologies and the Evolution of Web 3.0 IGI Global Web technologies have become a vital element within educational, professional, and social settings as they have the potential to improve performance and productivity across organizations. Artificial Intelligence Technologies and the Evolution of Web 3.0 brings together emergent research and best practices surrounding the effective usage of Web 3.0 technologies in a variety of environments. Featuring the latest technologies and applications across industries, this publication is a vital reference source for academics, researchers, students, and professionals who are interested in new ways to use intelligent web technologies within various settings. Blended Learning: Concepts, Methodologies, Tools, and Applications Concepts, Methodologies, Tools, and Applications IGI Global Traditional classroom learning environments are quickly becoming a thing of the past as research continues to support the integration of learning outside of a structured school environment. Blended learning, in particular, offers the best of both worlds, combining classroom learning with mobile and web-based learning environments. Blended Learning: Concepts, Methodologies, Tools, and Applications explores emerging trends, case studies, and digital tools for hybrid learning in modern educational settings. Focusing on the latest technological innovations as well as effective pedagogical practice, this critical multi-volume set is a comprehensive resource for instructional designers, educators, administrators, and graduate-level students in the field of education. 5 Steps to a 5 AP Biology with CD-ROM, 2014-2015 Edition McGraw Hill Professional Provides a study plan for the AP biology exam, discusses study skills and strategies, reviews key concepts, and provides five practice exams. Chemistry Cengage Learning This fully updated Ninth Edition of Steven and Susan Zumdahl's CHEMISTRY brings together the solid pedagogy, easy-to-use media, and interactive exercises that today's instructors need for their general chemistry course. Rather than focusing on rote memorization, CHEMISTRY uses a thoughtful approach built on problem-solving. For the Ninth Edition, the authors have added a new emphasis on critical systematic problem solving, new critical thinking questions, and new computer-based interactive examples to help students learn how to approach and solve chemical problems--to learn to think like chemists--so that they can apply the process of problem solving to all aspects of their lives. Students are provided with the tools to become critical thinkers: to ask questions, to apply rules and develop models, and to evaluate the outcome. In addition, Steven and Susan Zumdahl crafted ChemWork, an online program included in OWL Online Web Learning to support their approach, much as an instructor would offer support during office hours. ChemWork is just one of many study aids available with CHEMISTRY that supports the hallmarks of the textbook--a strong emphasis on models, real world applications, visual learning, and independent problem solving. Available with InfoTrac Student Collections http://gocengage.com/infotrac.
